1963 SPRING
GARDEN
GUIDE

COLORFUL — HYBRID FRENCH LILACS

No garden should be without some of these gorgeous French Lilacs. They bear immense flower panicles 8 to 12" long, thickly massed with single and double florets that are richly fragrant. Bushes are compact and shapely. Do not sucker. They are superb for lawn specimens, shrub borders and Lilac hedges.

CHARLES JOLLY. 1384. Double wine-red.
PRESIDENT GREVVY. 1380. Soft violet-blue.
MOUNT BLANC. 1386. Snow white.
MARECHAL LANNES. 1382. Rich pink.

HARDY LARGE FLOWERING CLEMATIS

Without doubt the most attractive and colorful flowering vines. Bloom profusely in early summer, followed by some blossoms throughout fall. The spectacular flowers add distinction and charm to any garden. Unequalled for porch, trellises, arbors, pergolas, posts and walls. Grows rapidly, producing an abundance of lush green foliage. We offer four outstanding varieties:

JACKMANI. 1502. Large purple flowers. One of the loveliest and most popular.

BARON VEILLARD. 1504. Lovely pink flowers, bloom profusely on this hardy climber.

MME. LE COULTRE. 1506. Glistening, pure white flowers borne in lavish abundance.

VILLE DE LYON. 1508. Showy red flowers. Provides a gorgeous display of color.

MAGNIFICENT HARDY HYBRID

RHODODENDRONS

Unquestionably, the Rhododendron is one of our most elegant native plants. Always a thing of beauty — these new, hardy hybrids are truly magnificent, and perfectly adaptable for use in most sections if given reasonable care. Can be grown in full sun or shade. In the South, light shade is necessary. Loamy acid soil, rich in organic matter, is preferred, and a mulch of peat moss or leaf mold will ensure more luxuriant growth.

Rhododendrons, with their beautiful flowers and broad-leaved, leathery, evergreen foliage, are perfect anywhere in the landscape or foundation planting. They are extremely effective when planted in groups or borders, combining all colors for contrast and interest. They can be used with dramatic effect at entranceways, and in combination with other plants in front of the house. Wherever grown, they will reward you with a lifetime of garden beauty. For planting this spring, we offer the following varieties:

CATAWBIENSE GRANDIFLORUM. 1394. Deep lilac blooms.

CATAWBIENSE ALBUM. 1392. Beautiful glistening white.

ENGLISH ROSEUM. 1395. Soft rose with a tint of lilac.

DR. H. C. DRESSELHUYS. 1393. Deep crimson-red.

Postpaid	Each	2

AZALEA MOLLIS

**Hardy Large Flowering
Imported Varieties**

Gorgeous, large, waxen blooms cover the plants in May and June giving a display of color unequalled by any other shrub. Beautiful to see when in full bloom. Offer many possibilities for enlivening your garden with sparkling color. Graceful, 3-4 ft. shrub. Use them for accent in foreground of foundation planting or shrub border; in groups or borders for bold color effects along driveway or garden walk.

Can be grown in full sun or shade, (prefer light shade in the South). A generous quantity of leaf mold and acid peat mixed into the soil at planting will induce finer blooms. Do not cultivate deeply as Azaleas root close to the surface.

Your choice of colors: 1314, Orange; 1316, Red; 1318 Salmon; 1320, Yellow.

Postpaid	Each	2	5

BUTTERCUP SHRUB

(POTENTILLA MOONLIGHT)

1442. An impressive shrub that grows in an irregular small mound about 2 to 2½ feet high, covered with a mass of small fern-like leaves. It is studded with intensely brilliant golden-yellow, buttercup-like flowers from June until October. Does best in full sun. Thrives on most any kind of soil. Very hardy.

A charming shrub for use in front of shrub border or in foreground of perennial plantings. Also excellent for a low hedge or edging. Planted 12 inches apart, it will make one of the most brightly colored, dense hedges imaginable. A mound of green and gold all summer.

Postpaid	Each	2	4
2-year field-grown plants.....	\$1.50	\$2.75	\$5.25

Buttercup Shrub ↑

Colorful-Showy MAGNOLIAS

One of the First Trees to Bloom Each Spring!

MAGNOLIA SOULANGEANA. 1272. This is the hardiest Magnolia and many consider it the most beautiful of all flowering trees. One of the first trees to bloom in early spring. The delightful, fragrant blossoms measure 8 inches across and are very striking with their petals of purple-pink on the outside and white inside. Dwarf growing tree reaches a height of 12 to 15 feet. Deep green, leathery foliage follows the flowers providing a handsome lawn specimen for the summer. When in bloom, even one tree will dominate the garden.

	Each	2
3-4 ft. branched.....	\$5.50	\$9.95
2-3 ft. branched.....	4.45	8.45

MAGNOLIA NIGRA. 1270. The large, Lily-like blooms of beautiful purplish-red cover the compact tree producing a breath-taking display early in the spring. Nigra is later flowering than Soulangeana and blooms over a longer period from April to June. Blooms are long lasting. Waxy green foliage follows the flowers, making an excellent tree for any landscape purpose. Grows into a handsome small tree, 12 to 15 feet tall. Sure to bring you satisfaction over an entire lifetime.

	Each	2
2-3 ft. branched.....	\$4.45	\$8.45

GET YOUR COMPLETE PLANTING GUIDE...

Free

With every planting order, we send FREE a complete Planting Guide. It tells in a clear simple way how to plant, so that even if you have never done any planting, you can have success. It tells how to prune, water and care for plants over winter; how far apart to plant; when and where to plant, etc.

Free Gifts for Early Orders!

Ordering Early Pays You Handsome Dividends

Order before April 1st, 1963 and receive one of these Gifts from Emlong's, for every \$6.00 worth you buy from this catalog. Here's how it works: With every order of \$6.00, you may select any one of the premiums listed.

With every order of \$12.00, you may select any two premiums, alike or different.

With each additional \$6.00, you may select one more premium.

IMPORTANT. Premiums allowed only on orders with full remittance enclosed. No premiums allowed on C.O.D. orders. The premiums you select must be written on the order, or none will be sent; even if you notify us later. If we run short of some items, we reserve the privilege of changing premiums — sending you stock of equal or greater value.

NEW

Storage-Packing & Office Building Means BETTER PLANTS — FASTER SERVICE for Our 400,000 Customers Across the Nation

After more than 70 years in the horticultural business, we now are better equipped than ever to meet your needs through our "shop-by-mail" and "drive-in" service. Our new modern plant and office contains upwards of 30,000 square feet, or more than $\frac{2}{3}$ of an acre, of facilities devoted to filling our customers' nursery orders. In addition, there are extensive lath areas to display the many items we handle for those who call at our nursery.

One of the biggest improvements we have made has been our enlarged refrigerated storage areas. This will enable us to deliver to you all types of plant material in the very best growing condition. Our improved working areas will enable us to give you better, faster service than ever before. We, as lifetime nurserymen, can help you make your garden more beautiful, more fruitful, and more enjoyable.

SATISFACTION GUARANTEED

You save money and get better plants when you deal direct with the grower. We have several hundred acres of planting materials growing under modern scientific cultivation methods, supervised by expert nurserymen with a lifetime of experience. Our nurseries are located in one of the most favorable growing areas of the nation, bordering on beautiful Lake Michigan. We have a long growing season, giving time to make strong, thrifty plants and our winters are cold enough to ensure complete hardiness.

EMLONG'S GUARANTEE TO YOU

Emlong's guarantee everything to reach you in the finest growing condition. If found to be otherwise, make damage claim within 5 days after receipt of stock and we will replace damaged items free.

Emlong's guarantee all stock to live and grow. If anything fails, report such loss to us not later than August 1st. We will replace during the next growing season.

All we ask is that you follow planting instructions included with your order. The nursery is not responsible for losses caused by unfavorable weather conditions.

Emlong's guarantee everything to be true to name. If found to be otherwise, we will replace free upon due proof of untruthfulness.

It is mutually agreed that our liability cannot be greater than the purchase price. We want you to be satisfied. If anything is wrong, we want you to write to us.

IT'S EASY TO ORDER BY MAIL from EMLONG'S

Saves You Time and Money. You can make your selections leisurely in the comfort of your own home. You get better plants for less money because Emlong's grow large quantities and ship direct to you. No "hidden costs" are added on. Plants reach you fresh and in best possible growing condition.

Greater Selection. You have hundreds of items to choose from. Each item is fully described and faithfully illustrated.

(4)

Emlong's large acreage is devoted to growing thousands of plants under the supervision of experienced horticulturists. Continuous development and testing of varieties assures you of getting the BEST NURSERY STOCK obtainable. Join the wise shoppers.

BUY DIRECT FROM THE GROWER AND SAVE.

We recommend Organic Gardening Magazine to help you grow better flowers, shrubs and fruits. An introductory order form for our customers is enclosed.

ABOUT OUR CATALOG

Our catalog is not simply a sales book, but a guide to better plants. You will find all of the newer and better varieties carefully described and illustrated. You will not find anywhere, a finer selection of the best in plant material. Every plant is backed by our written guarantee, giving you complete satisfaction from every purchase made from Emlong Nurseries.

CONVENIENT BUDGET PLAN

Lower Terms — Longer Time to Pay

Emlong's are making it possible for you to do your complete home planting now, and pay for it with Emlong's Easy Budget Plan.

Buy Now! Pay Later!

Emlong's Easy Budget Plan is available for the purchase of nursery stock from this catalog, if your order totals \$20.00 or more. Write today for our Easy Budget Plan information.

Important. Order Now. Please allow two weeks to process Time Payment orders. Sorry we can't accept Time Payment orders after May 1st. Place your order Now. Emlongs will make shipment of your nursery stock at the proper planting time for your locality. Do It Now!

ORDER BY NAME and CATALOG NUMBER

Items listed in this catalog will be reserved for you as long as the limited supply of them lasts. Many items were sold out early last year! Don't wait until planting time—reserve your needs as soon as you receive this book! We send you a receipt and ship at planting time. First orders will receive first attention. Order early and save!

WE RETURN ALL PAPERS

All papers pertaining to your orders will be returned to you when the order is acknowledged. Do not destroy them. If it becomes necessary to write us AT ANY TIME in regard to your order, be sure to return everything, including correspondence, original order and shipping tags. It is not necessary to return planting instructions.

WE PAY POSTAGE ON MOST ITEMS

You will please note that most items listed in our 1963 Spring Catalog are delivered to you postpaid, and are so listed. This saves you money.

There are, however, some items that are too large to ship by parcel post, such as fruit trees and shade trees. There are items such as hedge plants and some varieties and quantities of berry plants that are listed at such a low price for the high quality of stock that we cannot afford to pay the shipping charges. These items are shipped to you transportation charges collect.

In some orders there are trees which must go by express, and also some stock which would ordinarily go by parcel post. In order to avoid making two separate shipments, we send the entire order by express. For this privilege we include extra stock which has a greater value than the amount of the extra transportation charges. When selecting this extra stock for you, we choose items that fit in with the other items on your order.

FRENCH PUSSY WILLOW

First in Spring to Appear

1422. Silvery Grey Catkins. This is the outstanding cultivated French variety. Long supple branches bear a profusion of large, fuzzy, silvery grey catkins with pinkish cast; last for many weeks. Highly prized for forcing indoors and early spring bouquets. The shrub is tall growing and attractive all season. Has long, narrow green leaves; symmetrical growth. Excellent for lawn specimens, or tall screens and backgrounds.

Postpaid	Each	2	4
2-3 ft.	\$1.50	\$2.75	\$5.25
12-18 in.	1.00	1.75	3.25

ROSE GOLD PUSSY WILLOW

Large Catkins Turn Silvery Pink

1421. New and different! Hundreds of downy catkins appear in March and progress through fascinating color changes — first silvery grey, then silvery pink, then rosy pink dotted with hundreds of bright yellow stamens, finally almost solid gold. Be sure to have this exciting new variety. Large catkins last for weeks. **2-Yr. Plants, \$1.50 each; 2 for \$2.75; 4 for \$5.25, ppd.**

COTONEASTER

1344. (Divaricata) A showy ornamental shrub that is rapidly gaining in popularity. Grows to ultimate height of about 5 feet. Gracefully drooping branches bear clusters of small, pink flowers in June and brilliant red berries in autumn. Foliage is small and round, waxy, bright green, changing to glistening red in fall.

Postpaid	Each	2	4
18-24 in.	\$1.85	\$3.50	\$6.75
12-18 in.	1.25	2.25	4.25

FRAGRANT

Viburnum

HARDY

VIBURNUM SETIGERUM

1456. Outstanding ornamental for your yard. Comes into its most colorful stage in late summer when large clusters of brilliant red berries literally cover the plant. Fruits last well into winter. Large deep green leaves and lovely white flowers in spring add to its charm. Easy to grow. Mature height 10 feet.

Postpaid	Each	2	4
2 Yr. Plants.....	\$1.75	\$3.25	\$6.25

HIGH BUSH CRANBERRY

Excellent for Hedge or Screen

743. Many species of birds are attracted by the bright red berries which ripen in July and remain through winter. Makes a very delicious tart jelly. Large flat clusters of white flowers bloom in May and June. Plant is upright, spreading in growth habit; mature height about 10 ft.

Postpaid	Each	2	4
2 Yr. Plants.....	\$1.50	\$2.75	\$5.25

VIBURNUM BURKWOODI

Gardenia Scented Snowball Flowers

1418. Has hardiness, rapid growth, beautiful foliage and general dependability of the group plus a new loveliness of bloom and gardenia scent. Lovely waxy, blush-white flowers are borne in ball-like masses during spring. Grows 5-6 ft. tall. Thrives in shade or sun.

Postpaid	Each	2	4
12-15 in. Field-Grown....	\$2.25	\$4.25	\$8.25

VIBURNUM WRIGHTII

Abundance of Glistening Red Berries

1458. This distinctive and beautiful new variety comes to us from Japan. The handsome deeply veined, oval shaped leaves are of a metallic green color. A perfect foil for the clusters of white flowers which appear in May and June. From August to October large cymes of glistening red berries are produced in such great abundance the branches are often weighted to the ground. Foliage turns a rich crimson in autumn. The plant develops into a spreading bush, 4 to 6 feet tall at maturity. Hardy.

Postpaid	Each	2	4
2 Yr. Plants.....	\$1.75	\$3.25	\$6.25

VIBURNUM CARLESI

So Fragrant They Perfume the Yard

1417. One of the most fragrant of flowering shrubs. Waxy, white pink-tinged blossoms borne in dense snowball clusters, spread their delicious fragrance throughout the garden. Handsome grey-green foliage is attractive all summer; changes to bronzy-red in fall. The plant is hardy, easy to grow. Thrives in sun or partial shade. Reaches a height of 5 to 6 feet at maturity. Blooms profusely in spring and the flowers keep exceptionally well. Plant one or several near the outdoor living areas, in corner groupings or flanking an entrance.

Postpaid	Each	2	4
12-15 in. Field-Grown....	\$2.25	\$4.25	\$8.25

BRILLIANT TRUMPETS HERALD THE BEAUTY OF SPRING

Flaming Display in May and June

Each bush is literally covered with hundreds of sparkling rosy-red trumpets over 1 inch across. Additional blossoms appear throughout summer and continue into fall.

Thrives in All Sections — North, South, East and West

The Cardinal Shrub has withstood temperatures of 20 degrees below zero. It is the most widely planted new shrub of our century.

Easy to Grow on Any Soil

Thrives in full sun or part shade. Flowers even more profusely when sprays are clipped for floral bouquets. Makes a shapely bush about 6 feet tall.

1426. (Weigela Vanicek) Positively breathtaking in color and beauty . . . whether it be a single lawn specimen, a border background, or as a hedge encircling your home. Possesses all the qualities to make it the most desirable flowering shrub for every landscape purpose. Highlight your garden this spring with Emlong's new, Cardinal Shrub.

Postpaid	Each	2	4

SNOWFLAKE MOCK ORANGE

New Fragrant Double Mock Orange

1420. Loveliest of all Mock Orange! Sweetly fragrant, large double flowers of purest white are borne in large clusters. Blooms freely in June and July, completely covering the bush from top to bottom; then occasionally throughout summer and fall.

Have this excellent shrub for your yard, as a background for lower growing plants, or as single specimens for the outdoor living room, where their heavenly fragrance can be enjoyed by all. Plant in full sun or semi-shade. Grows 6 feet tall; bright green, handsome foliage.

Snowflake Mock Orange

GOLDEN MOCK ORANGE

Golden Yellow Foliage All Season

1414. One of the showiest of all flowering shrubs because of its all-season golden-yellow foliage. The flowers are intensely white and have a delightful, delicate fragrance. They bloom profusely in early summer. It is a superb plant for color contrast in foundation planting and shrub border. Of dwarf, compact habit. Not fussy as to location; thrives everywhere. Ideal for low colorful hedges; well suited to ranch-type homes.

Red Twig Dogwood

RED TWIG DOGWOOD

Colorful Summer & Winter

1454. Conspicuous for its bright red bark which adds a burst of color to the garden during winter. Lovely in spring and summer with creamy-white flowers and bright green foliage, and again in fall when white berries contrast with the red bark. Grows 6 to 8 feet tall. Hardy. For winter color in the garden it is unequalled.

BUDDLEIA

Butterfly Bush or Summer Lilac

No other perennial or shrub gives such a brilliant, lasting display of color so soon after planting as the Buddleia. These bushes will grow 4 to 5 feet this summer and bloom abundantly from midsummer to late fall. Attract rare butterflies. Cut off tops each fall. New tops grow each year and bloom on the new wood. No special soil needed. Easy to grow; require little care; last for years.

ROYAL RED. 1336. Newest of the brilliant tones; deep wine-red.

DUBONNET. 1332. Magnificent 12-inch flower spikes of glowing Dubonnet-red. Wonderful for bouquets; flowers exceptionally long-lasting.

ILE DE FRANCE. 1334. A favorite deep purple. Grows 4 to 5 feet tall. A real beauty, and richly fragrant.

PINK CHARMING. 1330. Delicate pink blooms on long spikes. Lovely for garden display and cutting. Bushy plant about 5 feet tall.

SPIREA The Perfect Shrub for Hedge and Specimen Planting

SPIREA BRIDAL WREATH

1114. (Spirea Van Houttei) Gracefully arching branches and pure white flowers make this one of the most useful and popular of flowering shrubs, for hedge, groups or single specimens. Grows successfully everywhere. Can be trimmed anytime during summer. Perfect for informal hedge or tall, screening hedge. Pure white flowers are borne in dense clusters along the entire length of the branches. Blooms in May. Grows 5-6 ft. tall.

Postpaid	Each	2	4
2-3 ft.	\$1.00	\$1.95	\$3.75

SPIREA BLUE MIST

1408. (Caryopteris) The exquisite new Blue Spirea. Clusters of fringed powder-blue flowers cover the bush from August through fall. Grows into a low mound about 2 ft. tall and 2 ft. wide. The distinctive flowers and handsome silvery-green foliage add a charming effect to flower border or foreground of shrub plantings. Cut off old tops in spring. **12-15 in. Field Grown Plants, \$1.25 each; 2 for \$2.25; 4 for \$4.25, postpaid.**

SPIREA RUBY GLOW

1410. (Spirea Coccinea) One of the finest dwarf-growing hedge plants. Neat, bushy growth, 2 to 3 feet tall; requires no trimming. Conspicuous rosy-red flower clusters cover the entire plant in spring, and blooms at intervals throughout summer. Grows in full sun or light shade, and ordinary soil. Excellent for foundation planting, corners, in front of taller shrubs and single specimens. Perfectly hardy.

Postpaid	Each	2	4
2-Yr., Field-Grown Plants.....	\$1.50	\$2.75	\$4.95

CORKBARK *Burning* BUSH

(Euonymus Alatus Compactus)

Thrives in Sun or Shade — Dwarf Growing

1338. This distinctive shrub attracts attention wherever it is grown. Produces small yellow flowers in spring, followed by red fruits. Has an unusual corky bark. Its most notable characteristic is autumn coloring of startling brilliance. The oval-shaped green leaves turn to brightest coppery-crimson tinged with rose. A single specimen will make a spectacular addition to the lawn or border planting.

Plant for Brilliant Color in Your Yard. Compact growth, easy culture and brilliant autumn foliage make this one of the finest shrubs for the border or a colorful hedge, as well as individual planting. Thrives in sun or shade. Does well in most soils; requires minimum care. Ultimate height is about 6 feet.

Spirea Ruby Glow

DAPHNE CNEORUM

1444. Captivating, deliciously fragrant plant of dwarf, spreading habit. Dense, slender foliage is practically evergreen. From early spring to May the plant appears as a low pink mound — with its great profusion of fragrant, rose-pink blossoms. Blooms again in early autumn. As an edging plant in front of evergreens and shrubs, it is unequalled. Valuable too, as a low hedge along garden walks and around flower beds. Foliage is a rich, glossy green. Perfectly hardy; easy to grow. Here is a choice plant that merits a place in every landscape plan. **Strong, 8-10 in., plants, \$2.25 each; 2 for \$4.25; 4 for \$8.25, postpaid.**

ROBIN HOOD HEDGE

Friendliest of All Fences — and Truly Low Cost!

1108. The perfect hedge Rose. Creates a beautiful, living fence that needs no painting or maintenance. Multitudes of brilliant cherry-red roses are produced in large clusters early in the season, and again in summer and autumn. Makes a densely compact growth with an abundance of healthy, deep green foliage. Provides privacy and protection from noise and intruders — yet remains a "friendly" fence. Extremely hardy. Grows in most soils. Can be trimmed to any desired height over 3 feet.

HARDY HEDGE PLANTS

① HARDY PRIVET

(Amoor River North) 1110. Easiest to grow of all Privets. Very hardy and will thrive where other plants fail. Makes an attractive hedge in all seasons with its glossy green leaves and clusters of white flowers, followed by berries. Trim to desired height and shape any time during summer. Leave untrimmed for foundation and screen plantings. Set bushes 9 to 12 inches apart. For a wider hedge, plant 2 rows, alternating the plants. Well branched, well rooted bushes.

ROSA MULTIFLORA—A Living Fence

1112. Now you can have a natural living fence that will last for years, without expensive upkeep. **Rosa Multiflora** is the amazing new hedge material that garden and farm magazines have written so much about recently. The plants are very hardy; grow rapidly, and in just a few years will make a hedge dense enough to keep all types of animals in their place.

Eliminate expensive repair bills and maintenance costs by planting **Rosa Multiflora** wherever a fence is needed. Easy to grow; thrives under most soils and conditions of weather. Requires no training, pruning or clipping. Grows to a height of 8 feet, blooms each year and is the most practical, decorative planting material that can be used. Plants should be set 12 inches apart. A living fence adds beauty and value to your property. Plant **Rosa Multiflora** this spring.

Silver Queen

HYBRID MAPLE ▶

- SEEDLESS
- FAST GROWING
- VERY HARDY
- GROWS ANYWHERE

1238. We are particularly pleased to offer this sensational new Hybrid Silver Maple to our customers, because we believe its many superior qualities meet the needs of present-day home owners.

As you know, the Silver Maple has been an excellent, fast growing shade tree for many years. Its only fault was the production and shedding of seed pods which were a nuisance. Consequently, Mr. Henry Kleine of Newport, Michigan hybridized a Maple for us that has developed into a wonderful, fast growing, long-lived, seedless tree.

IDEAL FOR NEW HOMES

A Beautiful Setting and Good Shade Quickly!

The Silver Queen Maple is drought-resistant, hardy and adaptable to a wide range of soils. It is a beautiful shade tree with interesting cut-leaf type foliage and pyramidal in form. The rapid growth of this tree is the answer to a long-felt need of many of our customers who want shade and a beautiful background for their homes in the shortest time possible.

It also meets the needs of those who find it necessary to replace undesirable trees. To many, the cost of planting large shade trees would be prohibitive. With Silver Queen Maple there is no need to wait years — you get lots of shade and beauty in a short time, at a reasonable cost! Our supply is limited. Order your trees early and avoid disappointment.

Emlong's ARTISTIC BIRCHES — Accent Your Home Beautify Your Lawn

MULTIPLE BIRCH ▶

Beautiful Year Around!

1224. (Clump Birch) These are a special strain of beautiful American White Birch which produce three or more trunks from one root. Bark is white on 2- to 3-year-old trees and stays white winter and summer. Dense, bright green foliage covers the fine graceful branches, providing an effective contrast to the white bark. Leaves turn a pleasing yellow in fall.

Growth is gracefully upright; about 25 to 30 feet at maturity. Perfectly hardy; thrives everywhere. Widely used for specimen planting or naturalizing. You'll enjoy their artistic beauty throughout the year!

Handsome SHADE TREES

Hardy & Enduring for Lifetime Enjoyment

SHADEMASTER LOCUST

A Superior New Shade Tree

1218. (Pat. No. 1515) This improved new Locust is seedless and thornless; requires no leaf-raking in fall. Lovely, dark green lacy foliage provides excellent shade, yet filters sunlight through to encourage good lawn growth right up to the trunk.

Shademaster is perfect for lawn, terrace, parkways or street planting. Grows rapidly, often 5 feet in one year; strong, straight trunk requires no staking. Ascending branches form a beautiful, symmetrical top; ultimate height 25-40 feet. Thrives under all conditions: Wet or dry soils, adverse weather, city smoke and soot. Roots deeply, will not heave sidewalks; resists drought, disease and insects. Small leaves hang on until late fall, then sift down into lawn; no raking is necessary. Shademaster lets you enjoy cool, relaxing shade, adds beauty with minimum care — will give lifetime satisfaction.

MORaine LOCUST

1220. (Pat. No. 836) Has all the fine characteristics of the common Honeylocust PLUS rapid growth and it is seedless. Does not produce unsightly seed pods to clutter the lawn; non-fruiting habit also improves foliage. Grows successfully on a wide range of soils; withstands extremes of temperature; is hardy and long-lived. Forms a large, beautifully shaped head, similar to American Elm in appearance. An excellent shade tree for large or small lawns and street planting. Unharmed by city smoke and gases. Thrives in all locations.

LOMBARDY POPLAR

Fine for Windbreak and Tall Screens

1246. Stately, tall tree, naturally columnar in growth. Branches from the ground up; needs no pruning. Attains a height of 75 ft. or more at maturity. Presents an elegant aspect when planted along driveways and property lines. Dark green, shapely leaves have a lighter undersurface. Grows rapidly. Thrives on the poorest of soils; sturdy and long-lived. Can be planted 5-6 feet apart for a dense screen.

TULIP TREE For North or South

1236. (Tulipifera) One of our grandest native trees. Grows into a beautiful specimen of symmetrical, pyramidal form, about 70 feet tall at maturity. Succeeds in both Northern and Southern zones. Broad, glossy, fiddle-shaped leaves of clean, bluish-gray color are unique and attractive. Numerous small, orange-yellow Tulip-like flowers are showy in May and June. Bears long, cone-shaped fruits. Fall foliage is bright yellow. Widely planted for its ornamental quality and pleasant shade. Thrives everywhere, is sturdy and rapid-growing. Colorful and unusual, for lawns, parks and street planting.

Branched Trees	Each	2	4
4-5 ft.	\$2.50	\$4.75	\$8.95

Broad-Leaf EVERGREENS

American Holly Ideal for Hedges

1365. Colorful throughout the year with its distinctive, glossy evergreen foliage and brilliant red berries. Very hardy, can be grown in all sections. Grows rapidly and may be trimmed to any desired height from 4 to 20 feet. Grows best in fertile, well-drained, acid soil. We recommend the use of aluminum sulphate in planting. Makes a beautiful, dense hedge for outlining property lines, driveways, walks and for screening purposes, to shut out noise and unsightly views. Plant 3 feet apart in the row. **8-12 in. plants, 3 for \$2.29; 5 for \$3.29; 10 for \$6.29; 25 for \$14.95, postpaid.**

BOXWOOD

1436. (Welleri) Hardest Boxwood grown. Thrives everywhere; in poor soils, in sun or shade, under trees. Very compact growth; large dark green, attractive leaves. Makes a dense hedge quickly. Can be trimmed any height and shape. Plant 6 to 8 inches apart. Perfect for low hedge or edging. **Heavy 6-8 in. Plants, \$1.69 each; 2 for \$2.98; 4 for \$5.69, postpaid.**

OREGON GRAPE HOLLY

1432. (Mahonia Aquifolium) Holly-leaved evergreen shrub. Large, spiny, lustrous green leaves turn bronzy-red in fall. Yellow flower clusters in spring; followed by purplish-black berries. Grows 2½-3 ft. tall. Fine for shaded areas or sun. Hardy. **Selected 8-10 in. Plants, \$1.50 each; 2 for \$2.75; 4 for \$5.25, postpaid.**

UPRIGHT HICKSI YEW

1042. Grows in columnar, erect form. Foliage will be extremely dense and compact from ground up by shearing lightly as it grows. Excellent for corners and entrance planting.

COLORADO BLUE SPRUCE

1020. One of the most beautiful of Evergreens. Foliage color ranges from deep green to silvery blue-green depending upon the season. Grown from select Blue Spruce seed, but trees do not show blue to any extent until 2 to 3 feet. Each year the tree becomes more compact, beautiful and colorful. Pyramidal in form; tall, symmetrical in growth.

A favorite for landscaping, individual lawn specimens, hedges and corner plantings, because of its highly decorative foliage color. Plant in full sunlight for best color effect. Unmatched for beauty and hardiness.

Color Fast SCOTCH PINE

1052. A decorative tree densely covered with blue-green needles of medium length. Pyramid form gives great character to the tree. Rapid growing; hardy. Widely planted for windbreaks, screens and tall, dense hedges. Retains its rich color all season. Grows to a height of 25 ft. or more at maturity. Drought-resistant.

COLORADO BLUE SPRUCE

1020. One of the showiest evergreens. Foliage color ranges from deep green to silvery blue-green, depending upon the season. Grown from select Blue Spruce seed, but trees do not show blue to any extent until 2 to 3 feet tall. Symmetrical in form and tall growing. Broadly pyramidal. Widely planted for Christmas trees.

Sturdy Young Evergreens
at Economical Prices

Scotch
Pine

AUSTRIAN PINE

1048. The darkest and richest green of all Pine trees. Broad-based, solid in shape due to dense, heavily needled branches. Hardy and vigorous in growth. Tall, dignified form; about 40 feet at maturity. Very impressive. Grows in poor soil; withstands city smoke. A fine hedge to shut out noise of city streets. Good for windbreaks.

NORWAY SPRUCE

1022. A fast growing, tall stately tree. Dark green, thick, short needles. Very popular and widely used for outdoor living Christmas trees and specimen planting. Compact, dense growth makes it ideal for windbreaks and tall hedges. Thrives in a wide range of soils and locations. Also very ornamental when planted alone.

DOUGLAS FIR

1016. A rapid growing tree with beautiful blue-green foliage. Compact, shapely growth habit; tall, pyramidal form. Drooping 4-inch cones. Extensively planted for Christmas trees, windbreaks and shelterbelts. Very hardy.

BABY EVERGREENS

BUY NOW AT MONEY-SAVING PRICES

Grow them in your garden for 2 or 3 years before transplanting to permanent landscape location. In a few years they will be worth many times what you paid for them. Save money by planting these sturdy evergreens now.

PYRAMIDAL ARBOR-VITAE. 1040. Narrow, shapely, pyramidal form with green, fan-like foliage. Stands full sun.

GLOBE ARBOR-VITAE. 1030. Globular evergreens. Broad fan shaped leaves.

SAVIN JUNIPER. 1014. Spreading type Juniper. Dense dark green foliage.

PFITZER JUNIPER. 1012. The favorite in low growing spreading evergreens. Feathery green foliage is very attractive.

FASTIGIATA JUNIPER. 1010. Tall, slender evergreens; silvery green foliage.

MUGHO PINE. 1050. Dwarf pin-cushion pine with tufts of dark green needles.

SPREADING YEW. 1044. Branches out from the bottom into a low-bush formation. Fine, glossy dark green foliage. Mature plants bear bright red berries.

UPRIGHT YEW. 1046. The pyramidal type. Excellent for shade. Rich glossy green foliage remains attractive throughout the year.

HICKSI YEW. 1042. Beautiful shrub-like evergreen of medium height, columnar in form, dense green foliage. Red berries in fall and winter.

Tree Hydrangea

Graceful

WEeping CHERRY

1253. Exquisite and unique! Gracefully drooping branches grow from the top of the slender main trunk, somewhat resembling the frame of an umbrella. In spring, the tree attracts much attention when the branches are laden with clusters of dainty pink flowers. Very effective when used in pairs to accent an entrance, or when single specimens are planted to achieve a focal point.

	Each	2
5-6 ft. trees.....	\$7.95	\$14.95

KWANZAN FLOWERING CHERRY

1252. The flowers of this variety are particularly beautiful and showy. Large, 2-inch blooms with about 30 large petals of bright rosy-pink appear in early spring, followed by dark green foliage. Millions of visitors to Washington, D. C., have marvelled at the beauty of these trees. Extremely hardy, vigorous and rapid growing. As a lawn specimen or border tree it is unexcelled.

	Each	2	4
(16) 4-5 ft.	\$3.95	\$7.50	\$14.50

Colorful TREE HYDRANGEA

1296. A choice tree and one of the finest for ornamental planting, either as single specimens or in the foreground of high massed shrubs. Does not exceed 8 to 10 ft. at maturity.

**Dazzling Color from
Early Summer 'til Frost**

Beautiful large flower panicles are white in early summer, then change to rose-pink as the season progresses and finally to a rich bronze shade in late fall. Plant in the garden, on the lawn in front of a picture window, or in the border. Makes a showy display all season. Hardy, easy to grow.

EMLONG'S

Flowering CRABS

ALMEY CRAB

1256. **Dollar-Size Blooms, Glistening Fiery-Red.** Beautiful star-shaped blossoms cover the branches in early spring. Small scarlet fruits appear in fall and cling long after the leaves have fallen. Foliage is bronzy-red. Grows 12 to 15 feet tall. A sensational tree for your landscape — it's hardy, rapid growing, graceful and distinctive.

EVELYN CRAB

1255. **Unique Purple-Leaved Crab.** Will ornament your yard from early spring until late fall. Masses of bright cerise-red blossoms cover the branches in spring, followed by an abundance of small, bright red crabapples in fall. Tree is medium size. Hardy, and very resistant to fire blight.

HOPA CRAB

1258. **Fragrant Pink Flowers, Maroon Foliage.** Hundreds of bright red buds and pink blossoms present a magnificent show in spring. From midsummer until severe frost, small gleaming red Crabapples are produced, and are highly prized for jelly making. Foliage is colorful throughout the seasons.

MAKIMIK CRAB

1262. **Single Blossoms — Bronzy-Red Foliage and Fruit.** A recent introduction. Large, single China-rose flowers transform the tree into a solid bouquet in early spring. Develops into a well proportioned, medium size tree. Very hardy and disease free. Thrives well in any location and most soils.

RED SILVER CRAB

1257. **Red Foliage, Red Bark and Red Flowers!** Sensational New Flowering Crab. The "red-silver" leaves are a unique combination of maroon-red on top and silver underneath. Blossoms are the reddest of any Flowering Crab. Marvelous color from earliest spring to late fall. Tree has graceful, artistic growth habit.

STRATHMORE CRAB

1259. **New "Pyramidal Type" Crab.** Naturally ascending branches are a mass of rosy-pink blossoms in spring. Reddish foliage in summer, changes to scarlet in fall. Narrow form permits close planting — from 3 to 5 feet apart, to build a beautiful, living wall for privacy or screening undesirable views. Grows 10 to 15 feet tall. Also desirable for lawn or border.

BECHTEL'S DOUBLE FLOWERING CRAB

1254. **(Improved St. Georges)** Superior new strain; bears larger flowers, in prodigious quantity! Thousands of rose-like, double, pink blossoms lend their beauty and fragrance to the spring landscape. This is a small, beautifully shaped tree that will give years of garden pleasure. Plant as a screen along lot line, or as accent for lawn or border.

2-3 ft. Branched Trees.....	2.25	4.25	8.25

Red Bud

1280. **(Cercis Canadensis)** Also known as Judas Tree. It is an unforgettable sight in early spring with its myriad rose-pink blossoms covering every twig and branch. Small, graceful and irregular in shape. Grows to a height of about 20 feet; adaptable to a wide range of soils; requires little care.

Here is a tree of great charm and artistic beauty. Lovely as lawn specimens. Also very effective in the shrub border where the conspicuous spring blossoms, followed by large, heart-shaped green leaves, add variety to the planting. Hardy and enduring.

	Each	2	4
4-5 ft. Trees.....	\$2.75	\$5.25	\$9.95

GROUND COVERS

PACHYSANDRA

1528. **(Terminalis)** Valuable for use in densely shaded areas, and the only plant that will thrive under pine trees. Spreads rapidly, forming broad mats of waxy, bright green leaves. Foliage stays green all winter. Grows 6 to 8 inches high. Makes a beautiful low hedge for bordering walks and drives. Widely used as a covering on steep terraces, and under all kinds of shrubs and trees.

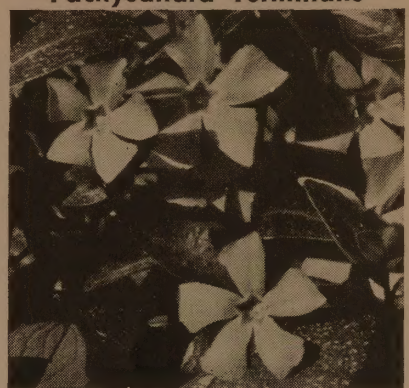

Pachysandra Terminalis

HALL'S HONEYSUCKLE

1519. A favorite plant both as a vine and ground cover. Grows rapidly and will thrive in sunny or shady locations. Because it roots deeply, it is an excellent plant to prevent soil washing away. Valuable for use on steep banks where other plants will not hold. Fragrant flowers are borne all summer, adding to its charm. Very hardy and easy to grow. Space plants about 18 inches apart.

Hall's Honeysuckle

Postpaid	10	25	50	100
	\$3.95	\$7.95	\$14.95	\$24.50

BALTIC IVY

1511. **(Hardy English Ivy)** The dense, glossy foliage creates a beautiful evergreen covering on steep banks and terraces. Also widely used for edging walks and borders. In some locations, where grass is not practical, it makes a splendid, easy-to-keep lawn. Thrives in dense shade under trees and shrubs. Plants are absolutely hardy; spread rapidly and make a lush green carpet in any location. Require very little care. Space plants about 8 inches apart.

VINES

Colorful
Decorative

Chinese Bittersweet

Boston Ivy

Silver Lace Vine

CLIMBING HYDRANGEA

1517. One of the choicest climbing vines. The effect created is most artistic as well as amazing. Its bold, clean and shrubby foliage is a rich, dark green color. The Hydrangea-like blooms are borne on projecting short spur-like branches throughout the summer. Blooms are white and very fragrant. A hardy, vigorous growing vine that will last for years. Clings to brick and wood without any support. Does equally well in shade or sun. The height can be easily controlled. **\$3.00 each; 2 for \$5.75, postpaid.**

CHINESE BITTERSWEET

1515. The most prolific fruiting variety known. The leaves are a glaucous green and somewhat larger than those of the common Bittersweet. It grows rapidly in any kind of soil, in sun or partial shade. In autumn yellow and orange-scarlet berries cover the vine all over instead of an occasional small cluster as in the common kind. This variety will always fruit even if planted alone, but we recommend that you plant two. Excellent for late fall and winter bouquets. **Select 2-yr. plants, \$1.50 each; 2 for \$2.85, postpaid.**

BOSTON IVY

1510. (*Ampelopsis Veitchii*) Attractive 3-lobed glossy green leaves. Dense, rapid grower when established. Clings to any surface. Thrives in sun or shade. Foliage turns scarlet in fall. Makes a thick covering on wall, tree trunks or posts. **2-Yr. Select Vines, \$1.25 each; 2 for \$2.25; 4 for \$4.25, postpaid.**

EVERGREEN BITTERSWEET

1514. (*Euonymus Radicans Vegetus*.) Strong growing variety. Dark green firm leaves last through winter and form an excellent background. Bears clusters of large, red Bittersweet berries; make good winter bouquets when dried. Will climb either brick or wood. Adaptable as a shrub or ground cover. Valuable for shady places where a delicate evergreen is needed. **2-yr. Select Vines, \$1.75 each; 2 for \$3.25; 4 for \$5.95, postpaid.**

HALL'S Fragrant Honeysuckle

1518. Dainty yellow and white blossoms intermingled, produce a beautiful effect all summer. One of the most fragrant of all Honeysuckles. Vines are hardy, vigorous growers; ideal for covering unsightly buildings, screening out undesirable views and softening harsh fence lines. **2-yr., field-grown plants, 65c each; 2 for \$1.25; 5 for \$2.95, postpaid.**

SILVER LACE VINE

1520. Beautiful vine, covered with lacy sprays of white flowers all summer. Will grow 15-20 feet first year. Foliage is clean, not bothered by insects. Should be planted in full sun. Adds great charm to a porch, patio wall or doorway. **2-Yr. Select Vines, \$1.25 each; 2 for \$2.25; 4 for \$4.25, postpaid.**

BLUE RIBBON **PATENTED** **Hybrid Tea Roses**

ROYAL HIGHNESS — 1963 All-America Winner!

1686. (Plant Pat. No. 2032) Experts acclaim it the Rose of flawless beauty! And we think you'll agree, when you see this queenly Rose growing in your garden. Long, shapely buds open to high-centered blooms with graceful, symmetrically arranged petals. To complement the classic rose form is exquisite color . . . pure pastel pink glistening with highlights as though frost-coated. Has sweet, enticing fragrance. The plant is vigorous, with abundant glossy green foliage and fine cutting stems. Awarded City of Portland Gold Certificate. **2-Yr. No. 1 Bushes, \$3.50 each; 3 for \$9.30, postpaid.**

TROPICANA — 1963 All-America Winner!

1688. (Plant Pat. No. 1969) The Rose with tremendous eye-appeal! And new color — TROPICANA is a scintillating orange-red — warm, exciting and as flamboyantly gay as its name! Gorgeous 5-inch blooms are perfectly formed, fragrant, long-lasting. And the color endures . . . pure, rich and unfading until the petals fall. Very prolific, robust plant; disease-resistant foliage. Winner of 13 International Awards. We know you will want it for your garden — everyone does! Order early. **2-Yr. No. 1 Bushes, \$3.50 each; 3 for \$9.30, postpaid.**

AMERICANA (Plant Pat. No. 2058)

1678. Beautiful form . . . vibrant color . . . exquisite perfume! This is AMERICANA — selected by thousands as "Rose of the Year for 1961". Magnificent, high-centered 6-inch blooms of glowing red will bring a blaze of color to your garden from June through September. **2-Yr. No. 1 Bushes, \$3.00 each; 3 for \$7.95, postpaid.**

CHRISTIAN DIOR — 1962 AARS Winner

1674. (Plant Pat. No. 1943) First Red Hybrid Tea to win the All-America Award in 9 years! Supremely beautiful in rich red coloring and classic rose form. Large, 60-petaled blooms come singly on long stems. Vigorous, free-flowering plant; healthy foliage. Prized for garden and cutting. **2-Yr. No. 1 Bushes, \$3.50 each; 3 for \$9.30, postpaid.**

CHRYSLER IMPERIAL (Plant Pat. No. 1167)

1652. A vivid crimson-red enhanced by overtones of dark oxblood red. Slender buds open to large blooms with 40-50 wide petals symmetrically arranged. Sweetly scented. Bush is compact with abundant foliage. **2-Yr. No. 1 Bushes, \$2.50 each; 3 for \$6.60, postpaid.**

GARDEN PARTY — 1960 AARS Winner

1670. (Plant Pat. No. 1814) Beautiful long buds open to immense full blooms of ivory at the heart, shading to creamy tones and with a distinct flush of appleblossom pink edging each wide flaring petal. Olive-green foliage. **2-Yr. No. 1 Bushes, \$3.00 each; 3 for \$7.95, ppd.**

HAWAII (Plant Pat. No. 1833)

1684. Different and thrilling as Hawaii itself! Never have we seen a color to compare with its warm, glowing blend of orange-coral — and the color lasts till the petals fall. Delightful raspberry fragrance. Glossy foliage. **2-Yr. No. 1 Bushes, \$3.00 each; 3 for \$7.95, postpaid.**

HELEN TRAUBEL (Plant Pat. No. 1028)

1658. Graceful buds and large blooms of excellent substance and pleasing fragrance. Color varies from sparkling pink to luminous apricot and sometimes orange. Vigorous, free flowering plant with good foliage. **2-Yr. No. 1 Bushes, \$2.75 each; 3 for \$7.20, postpaid.**

KING'S RANSOM — 1962 AARS Winner

1676. (Plant Pat. No. 2103) Selected as the most perfect true yellow Rose in a decade! Chrome-yellow buds open slowly to large, high-centered 6-inch blooms that shine like spun gold. Produced freely on long stems. **2-Yr. No. 1 Bushes, \$3.50 each; 3 for \$9.30, postpaid.**

Climbing Roses

BLAZE Everblooming Climber

1702. Blooms gloriously and continuously for months! Very double, blazing-red flowers are produced in large clusters from June to September. Makes a magnificent display — with thousands of 2 to 3-inch blooms on just one plant! Picture it against a white fence or wall; framing a window or doorway; on a post, trellis or porch. Wherever you plant it the results will be tremendously rewarding. Hardy, vigorous and reliable. Grows to a considerable height, sending up long, supple canes which are easily trained. Will succeed in all sections of the country. Foliage is luxuriant, healthy, glossy rich green. **\$1.50 each; 3 for \$3.95, postpaid.**

CLIMBING BLOSSOMTIME

1720. (EVERBLOOMING) Pat. No. 1240. Considered by Rosarians to be the perfect Everblooming Climber. Blooms early and continues until the snow flies! Exquisite blooms of camellia-pink, sweetly fragrant, of medium size and Hybrid Tea form. This variety fills a long felt need for a real Camellia-pink, full-petaled, hardy climbing rose. **\$2.50 each; 3 for \$6.60, postpaid.**

CLIMBING TALISMAN

1712. (EVERBLOOMING) Lovely, urn-shaped buds of orange yellow open to large blooms of salmon-orange shaded with red and gold. Very striking on fence or trellis, and for framing a doorway or picture window. Fragrant, long-stemmed blooms, favorites for cutting. **\$1.50 each; 3 for \$3.95, postpaid.**

CLIMBING GOLDEN SHOWERS

1714. (EVERBLOOMING) Pat. No. 1557. AARS Winner for 1957; first Climber in 16 years to win this honor. The plant is a beautiful display of rich golden-yellow Roses from early season to late fall. Well-formed buds open to high-centered, richly fragrant blooms on good cutting stems. Vigorous, rapid grower with plenty of healthy, glossy green foliage. **\$2.50 each; 3 for \$6.60, postpaid.**

CLIMBING DON JUAN

1710. Pat. No. 1864. Dozens of deep red buds and open blooms are displayed continuously throughout summer. The velvety, rich red 5-inch beauties are carried singly and in clusters on strong stems. Delightful fragrance and lustrous green foliage are additional attractions of this splendid Climber. A vigorous plant, growing 8-10 feet tall on pillar, wall or trellis. Highly resistant to mildew and disease; always dependable. **\$3.00 each; 3 for \$7.95, postpaid.**

CLIMBING CRIMSON GLORY

1704. (EVERBLOOMING) Pat. No. 736. Rich crimson color, perfect form, fascinating fragrances, plus vigor and profusion of bloom, make this one of the outstanding and most popular red Climbers. Beautiful, high centered blooms on strong stems make a magnificent cascade of color throughout the long blooming period. Foliage is rich green, disease-resistant. A very generous bloomer all season long. Sensational anywhere! **\$2.75 each; 3 for \$7.20, postpaid.**

Everblooming **MINIATURE FAIRY ROSES** THE SMALLEST ROSES IN THE WORLD! ➔

These fascinating, tiny Rose plants are perfect for edging beds of larger Roses and for lining garden walks. In solid beds by themselves they make an interesting center of attraction in the garden. They are hardy and grow as readily outdoors as the large Roses. Bloom freely all summer. You'll enjoy them in the garden, and to cut for enchanting arrangements and corsages. We offer the following varieties:

POMPON de PARIS. 1725. Beautiful double flowers of bright pink color. Compact plants, very free flowering; continuous bloom all season.

BABY GOLD STAR. 1722. (Pat. No. 407) Fully double blooms of golden yellow all through. The only true yellow Miniature.

OAKINGTON RUBY. 1723. Deep crimson buds open to fully double blooms of rich ruby-crimson. Blooms from May until late fall.

PRINCE CHARMING. 1729. Constant and prolific blooming. Fully double, rich sparkling carmine-red flowers.

PIXIE. 1726. (Pat. No. 408) The most double of all — 40 or more tiny petals to each tiny bloom! Pure white with blush-pink center.

BABY TALISMAN (Presumida) 1721. Recent Spanish introduction of bright orange-gold and salmon. Like Talisman in bud and flower.

Your choice of above: **\$1.35 each; 3 for \$3.60, postpaid.**

FIVE ALL-AMERICA ROSE SOCIETY WINNERS

PEACE. 1668. (Pat. No. 591) Glorious 5 to 6-inch blooms. Ovoid buds of golden yellow etched with pink open slowly to canary yellow changing to pale gold to iridescent cream Holly shaped foliage.

MIRANDY. 1634. (Pat. No. 632) Long ovoid buds of rich warm maroon-red that brings unusual brilliance to bouquets. Blooms are large and very double, with 40 to 50 petals. Long fine stems, ideal for cutting.

K. T. MARSHALL. 1624. (Pat. No. 607) A rose of rare beauty and delicacy of form. Grows vigorously with large, open, upright blooms of warm glowing pink. Fruity fragrance. Blooms continuously.

REX ANDERSON. 1616. (Pat. No. 335) Beautiful blooms of perfect form and delicate ivory-white color contrast dramatically with rich green, healthy foliage. Subtle fragrance. Vigorous grower.

CRIMSON GLORY. 1606. (Pat. No. 105) Well-formed flowers of deep, vivid crimson shaded oxblood-red and mellowed by a soft velvety nap; produced in abundance all season. Excellent foliage.

Hydrangea

PINK HYDRANGEA

Flowers Last 10 Weeks or More

1375. (Domotoi) This variety is one of the showiest and hardiest of Hydrangeas. Enormous globe-shaped clusters, 12-15 inches across, composed of large, semi-double, pure pink flowers. Makes an impressive display, lasting 10 weeks or more. Grows into a bushy 3-4 foot plant with healthy, bright green foliage which is decorative all season. Easily grown; does well in full sun or light shade. (In acid soil the flowers are light blue.) **2 Yr. Plants \$2.45 each; 2 for \$4.75; 4 for \$9.25, postpaid.**

HILLS OF SNOW HYDRANGEA

Grows in Both Sun and Shade

1370. Immense pure white flower heads blanket the plant, giving it the appearance of a living "snow-bank"! Blooms all summer from July to October. One of the finest plants for shady spots, alongside the house or in borders. Has large, heart-shaped leaves. Grows 3-4 feet tall; upright and compact. Does well in full sun or light shade. **Prices below.**

TRI-COLORED HYDRANGEA (HYDRANGEA P.G.)

Blooms Change from White-Pink to Bronze

1372. The fascinating 3-colored Hydrangea. Huge, cone-shaped flower heads are white when first in bloom, then gradually change to shades of pink and bronze as the season progresses. Blooms from mid-summer to frost. Thrives in sun or light shade; 4 to 6 feet tall at maturity. Hardy everywhere. The colorful flowers and tints of autumn foliage create a delightful display when color is most welcome.

DWARF FIRETHORN

Scarlet-Orange Berries All Winter

1435. (Pyracantha Angustifolia) Colorful evergreen shrub that can be used with good effect in garden and landscaping plan. Has long, slender branches and narrow green foliage, forming a dense bush. White flowers bloom freely in May. In fall, immense quantities of bright orange or brick-red berries appear and remain into winter. For a low, colorful hedge it is one of the best; also desirable for contrast among other shrubs and foreground of foundation planting. Prefers a sunny location.

Postpaid	Each	2	4

WHITE FLOWERING DOGWOOD

Clouds of Creamy-White Blossoms Brighten the Spring Landscape

(22) White Flowering Dogwood

1268. Cornus Florida. Hundreds of large, creamy-white flowers bring infinite charm to the early spring landscape. In fall, foliage changes from rich green to glowing red tones and bright scarlet fruits further enhance the tree. Hardy, easily grown. Perfect for any size lawn and street planting. About 10 feet tall.

	Each	2	4

2-3 ft. trees.....	2.25	3.75	6.75

1271. "Cloud 9" (Pat. No. 2112) Emlong's are pleased to announce the newest — "Cloud 9" — the ultimate perfection in Dogwoods! So lavish of bloom, the tree becomes a great billowing cloud of graceful, disc-shaped, glistening white blossoms — truly exquisite springtime beauty! Artistic branching habit, handsome foliage with rich autumn tints and colorful fruits, are additional features that make this a tree to enjoy the entire year. Have it for your home, now.

	Each	2	4
2-3 ft. trees.....	\$4.95	\$9.75	\$18.75

Pink Hydrangea

GOLDEN CHAIN TREE

Dual Purpose — Color and Shade

1264. (Laburnum Vossi) Flowers of purest golden yellow hang in graceful clusters, 12-18 inches long; similar in appearance to the Wisteria. Blooms profusely in late spring, transforming the tree into a mass of golden yellow. Grows 15-20 feet tall. Ideally suited to the small yard, but a fine addition to any garden. Smooth, green bark and large clover-leaf shaped foliage add to its beauty. Easy to grow. Prefers some shade or north side of house. A garden "must" — plant several.

	Each	2
5-6 ft. trees.....	\$5.25	\$9.95
4-5 ft. trees.....	4.50	8.25

RIVERS BEECH

The Final Touch of Elegance

1269. Imagine this most colorful and beautiful tree growing on your lawn — adding new distinction to your home! Gorgeous deep maroon foliage in spring, gradually turning a deep maroon purple in summer, and in fall a rich purple-brown. It is superb as individual specimens. Tall growing, symmetrical, hardy, long-lived and easily grown. Immune to insects. Does well in light shade. A sensational showpiece for any lawn — large or small.

	Each	2
2-3 ft. trees.....	\$4.75	\$9.25

SUNBURST SHRUB

Golden-Yellow Flowers in Profusion

1378. (Hypericum Hidcote) This splendid new variety comes to us from the famous Hidcote Estate in England. It is of dwarf habit, growing 2 feet tall and 2 feet wide; has dense leathery green foliage. Bright golden yellow, cupped flowers, 2-3 inches across bloom in profusion from early summer until mid-October. Very showy. In cold climates, the plant dies down in winter but sends up new growth each spring to bloom as profusely as ever.

Have this fine plant for additional color in the border or in front of evergreens; or under a picture window or entrance planter — it's sure to be a big attraction!

... DAINTY
COLORFUL

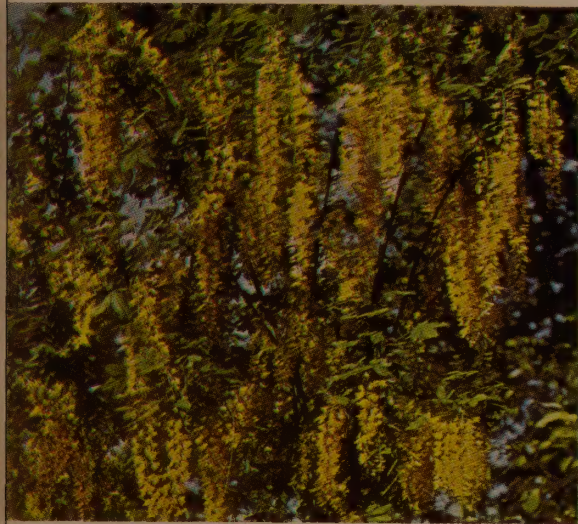

Phlox

Phlox
Subulata

Masses of dainty, colorful flowers completely cover the plants all through early spring. A perfect plant for terraces, banks, borders, walk edgings, the rockery; also invaluable for carpeting bare spots. Grows scarcely 4 inches tall. The moss-like foliage stays green all winter. Hardy, easy to grow. Plant 1 foot apart each way to make a dense ground cover in a short time. Soil should be dry and sandy and not too rich. Plant in full sun. Your choice of colors:

2180. **ATROPURPUREA.** Deep carmine red.
2182. **BLUE HILLS.** Deep blue.
2184. **EMERALD PINK.** Best bright pink.
2186. **WHITE DELIGHT.** Pure white.

Firethorn PYRACANTHA

LALANDI

Retains Foliage All Winter

1434. A remarkably beautiful berried shrub that retains its foliage all winter. Large trusses of pure white flowers bloom in May, followed by an abundance of brilliant orange-scarlet berries which densely cover the bush, making it a gorgeous "mound of flame!" The berries remain into winter, adding their brilliant color to the landscape. Valuable for indoor decoration during Christmas. Grows 4 to 6 feet tall. Hardy, vigorous. Very effective in foundation plantings, borders and hedges.

◀ NORTH STAR Dwarf CHERRY

632. A superior new Dwarf Cherry, originated by U. of Minn. Extremely hardy; will succeed farther north than any other Cherry of equal size and quality. The trees grow only 5 to 7 feet tall, making them easy to maintain — **easy to pick** the fruit. Bear **enormous** crops of large, mahogany red cherries. Fruit ripens early. Excellent for pies

and sauce. Has small pit, tender skin; flesh juicy and meaty. Ideal for backyard planting, as well as orchards. Trees are self-fertile, highly **productive** and dependable. Young-bearing, usually second year after planting. Very ornamental from blossom stage through fruiting period and fall foliage.

Dwarf 5-in-1 APPLE

611. Emlong's newest development in Dwarf Fruit Trees! These trees are grown in the nursery on special root stock which assures you of getting a true Dwarf that will bear five distinct varieties of Apples on one tree. You will harvest apples from midsummer until late fall. The fruit is of the same high quality and large size as that produced on standard size trees. These are hardy, vigorous, young-bearing trees; often bear the second year. Our trees are budded to the following varieties: **Red McIntosh, Yellow Delicious, Double Red Delicious, Yellow Transparent, Red Rome.** Order early.

	Each	2	4
4-6 ft. Trees.....	\$5.75	\$10.95	\$19.95

Dwarf PLUMS

These small trees are ideal for home gardens and orchards of limited space. Seldom grow more than 5 to 7 feet tall, but bear as heavily as larger trees. You can pick the fruit standing on the ground. They make fine ornamental specimens for lawn or garden. Plant 2 or more varieties for best results.

DWARF STANLEY. 645. Sweetest of all Plums or Prunes. Most popular variety for drying. Ripens midseason. Beautiful dark blue skin with heavy bloom. Golden flesh is fine-grained, juicy and flavorful; requires little sugar for canning. Freestone.

DWARF EUREKA. 647. Starts to bear young, usually second or third year. Always a big crop of large, thin-skinned fruits; juicy and delicious flavor. Trees are very hardy, trouble-free and long-lived. Grow well in almost any location; suitable for city and suburban gardens.

DWARF SUPERIOR. 644. Fruits are extra large; have beautiful wine-red skin with purple bloom. Yellow flesh is sweet and juicy; freestone; peel like Peaches. Make flavorful jellies, jam and preserves. Ripen in August. Trees are young-bearing and very productive.

Dwarf Pear Tree

Dwarf PEAR TREES

These trees bear full-sized, delicious fruit, the same as standard Pear trees. Often start to bear the first year after planting. Always produce a full crop of top quality, large sized fruit. Ideal for the home garden and growers with limited space. The trees are very ornamental in spring with their abundance of creamy white, **fragrant blossoms**. Can be planted anywhere about the home grounds, and will add beauty and value to your property. Plant as close as 5 feet apart. These sturdy dwarfs seldom grow more than 6 to 10 feet tall, and are loaded to the ground with fruit. **Easy to pick** — no need for ladders. You can stand on the ground and pick bushels of Pears. Plant two or more varieties for a succession of fruit. Our trees are **hardy, thrifty, heavy bearers, and sure to satisfy!**

Varieties available:

BARTLETT. 604. The favorite summer Pear. Wonderful flavor.

CLAPP'S FAVORITE. 606. Large, pale yellow with red blush. Ripens early summer. Good all-purpose variety.

DUCHESS. 608. Giant size. Tender, juicy. Ripens early fall.

**Paper-Shell
English Walnuts**

**Chinese
Chestnut** ♀

CHINESE CHESTNUT

Mammoth Size — Blight Resistant

908. Wonderful new strain, proven highly blight resistant in this country. Extremely hardy and vigorous. Trees are rapid growing, quick to bear and very heavy yielders. They produce fine flavored, sweet nuts that are larger than those produced on the ordinary American variety. When ripe, the burrs split open and delicious ready-to-eat goodness is yours. The meaty nutritious nuts are a favorite for everyone; always in demand for baking, confections and eating during the winter holidays. Trees grow about the size of an apple tree and are very decorative for lawns, providing good shade besides yielding an abundant crop of nuts each year. Bear young, will thrive in any well-drained soil and require very little care once they are set out. For a profitable crop of nuts, as well as beauty and shade, we recommend planting Chinese Chestnuts. Plant 2 trees for best results.

	Each	2	4
3-4 ft. Trees.....	\$2.95	\$5.65	\$9.95

Hardy ENGLISH WALNUTS

Famous Paper-Shell Carpathian Strain

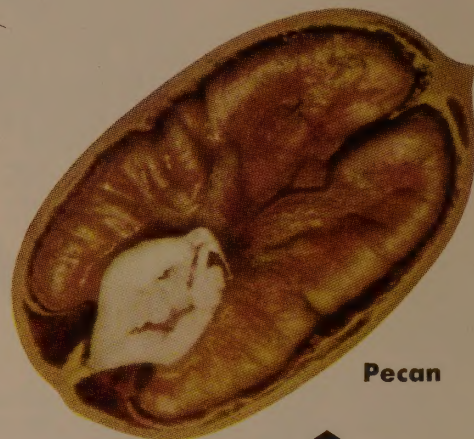

910. This hardy strain of English Walnuts grows rapidly and starts to bear at a young age. The nuts are large, thin-shelled and well filled with full-meated kernels of extra delicious flavor. The trees are very ornamental, extremely hardy and heavy, dependable bearers.

★ **A Fine Lawn Tree for Shade and Beauty**

★ **Abundant Crops for Home and Profit**

English Walnut trees provide an abundance of cool, dense shade, as well as a profitable crop of nuts year after year. Fast growing; will produce a good crop about five years after planting. Beautiful, dark green glossy foliage. Free from disease; require minimum care. For life-long beauty, shade and cash income, plant dependable English Walnuts. Plant 2 or more trees for perfect pollination.

Pecan

Thin-Shelled HARDY PECAN

Large Thin-Shelled Delicious Nuts

912. This is the rapid-growing, young-bearing Pecan that can be grown successfully in Northern climates. The nuts are very large and thin shelled; crack easily into halves. The nutmeats are of high quality with delicious flavor. Bears heavily and regularly, large nuts just like those you buy. Much in demand for baking, confections and eating fresh. A profitable crop for commercial growers.

Provide a Lifetime of Beauty, Shade and Nutritious Food

The Hardy Pecan is a beautiful, long-lived, strong-growing tree and a dependable, prolific bearer. A fine ornamental, growing to a great height in the course of time. Makes a beautiful shade tree, perfect for lawn or back yard planting. These are sturdy, vigorous growing trees; trouble-free, require little care.

HALL'S ALMOND

New Rapid-Growing, Young-Bearing Tree

902. We are pleased to offer this new improved dual purpose tree that blooms so beautifully and bears a fine crop of delicious Almonds. Northern grown; these trees are hardy and can be grown wherever it is possible to grow peach trees. They produce abundant crops of top quality, nutritious nuts. Used extensively by commercial bakers, confectioners, and housewives everywhere. Hall's Almond is a rapid-growing young-bearing nut tree. The nuts are large with large juicy meat, of fine quality. A fine ornamental making it an attractive addition to any landscape planting — the blooms are attractive, the foliage is deep green in color. This dual purpose tree that blooms so beautifully and bears a fine crop of Almonds will provide you with fruit and pleasure for many years. Best results are obtained by planting two trees. For beauty and shade as well as a profitable crop of nuts. ORDER TODAY.

New DWARF Hardy HALL'S ALMOND

903. Imagine! A small tree — not more than six feet high — loaded with delicious Almonds. Produces the same full-sized, nutritious nuts and beautiful flowers as the standard Hall's Almond. Add striking beauty to your home. Trees are lush with fragrant blossoms in spring; deep green foliage and golden nuts in summer and fall. Just right in size and shape for all landscaping purposes. Here's beauty which yields great eating! Plant two or more trees for best results.

Nut Trees Enhance the Value of Your
Home — Can Be Planted Anywhere.

Shagbark
Hickory

Thin-Shelled Thomas BLACK WALNUT

914. The wonderful new improved strain of Black Walnut. Starts bearing very young; often the second year. Produces enormous crops annually. The nuts are larger and have a softer shell, easy to crack. Come out in halves. Kernels are meaty with excellent flavor. The trees are very hardy. Develop into large specimens; magnificent for lawn or backyard planting.

Disease resistant. Grow quite rapidly and never fail to produce an abundant crop of high quality nuts. Self-pollinating.

2-3 ft. Trees.....	2.95	5.75	10.95

SHAGBARK HICKORY

Delicious Nuts Can Be Grown on Your Own Trees

916. New, improved strain. Produces quantities of large, easily shelled nuts, filled with plump, highly flavored, sweet nutmeats. The Hickory makes a beautiful shade tree, suitable for planting in any location where a large tree is desirable. Grows successfully in most regions. Bears abundant annual crops. Valued for its timber as well as the fine quality, nutritious nuts.

	Each	2	4
2-3 ft. Trees.....	\$1.45	\$2.65	\$4.95

BARCELONA FILBERT

Leading Commercial Variety

906. Larger than native Filbert and most widely planted by commercial growers. Trees are very productive, dependable and disease-free. Nut is extra large, roundish, flavorful and easily cracked. High in food value. Ripens early September. Culture is the same as for fruit trees, but must be planted with other varieties for cross-pollination.

	Each	2	4
3-4 ft. Trees.....	\$2.95	\$4.95	\$9.50
2-3 ft. Trees.....	2.25	4.25	7.95

DU CHILLY FILBERT

Large Long Nut — Cracks Easily

904. Vigorous growing, very productive variety; tree is upright in growth habit; not so large as Barcelona. Widely planted to pollinate other varieties. Nut is large and long, of excellent quality and very tasty; cracks easily. Nuts mature in early September and drop free from the husk. Easy to grow; will succeed in all sections where Peach trees can be grown.

	Each	2	4

GIANT *Pacific Hybrid* HARDY NORTHERN GROWN DELPHINIUM

The elegance and beauty of this marvelous new strain of Hybrid Delphinium almost defies description. Great stalks, 3 to 5 feet tall, bear enormous flower spikes heavily laden with individual flowers. Each flower is exceptionally large, 2 to 3 inches across, and perfectly formed. The blooms are single, semi-double and double. Colors are exquisite. Plant in groups of four for best effect.

BLACK KNIGHT. 2122. Large flowers of the darkest royal violet shades. White bee. The individual blooms are beautifully formed and richly colored.

CAMELIARD. 2126. Clear, soft lavender with white bee. Very large, round florets of perfect form.

GALAHAD. 2124. Giant glistening pure white flowers with white bees. Florets often reach three inches in diameter and are heavily textured. Blooms are carried on 5- to 6-foot stems.

GUINIVERE. 2129. Light pink-lavender self with white bee. Excellent branching habits; beautiful large blooms. Long, graceful spikes.

SUMMER SKIES. 2128. As beautiful as the name indicates. The blue is the blue of a summer sky and the white bees represent the fleecy clouds. The large individual florets are beautifully formed and carried on tall stiff stems.

70c each; 2 for \$1.30; 4 for \$2.45; 8 for \$4.45, postpaid.

Exciting New Astolat

PINK DELPHINIUM

Brings New Charm to Your Garden

2130. We are pleased to offer this exciting new series of Delphinium. The colors are exquisite, ranging from palest pink through shades of lilac-pink to raspberry-rose; all with contrasting black or fawn-colored bees. You'll like this new series. They make a gorgeous display when planted in groups by themselves; also they blend beautifully with other Delphiniums.

The plants have the same vigorous growth habit as other Pacific Hybrids. The florets are very large and well-formed, carried on long, well-filled spikes. Tall, strong, whippy stems withstand strong winds. Don't fail to include New Pink Astolat in your planting this spring. Order early.

75c each; 3 for \$2.19; 6 for \$3.98, postpaid.

Dainty LILY-OF-THE-VALLEY

(28) Lily-of-the-Valley

2064. Everyone loves these delightfully fragrant, white flowers. Exquisite, tiny, bell-shaped blossoms hang from strong 10-inch stems. Attractive green foliage is ornamental all season.

Plants are prolific growers and spread rapidly. Given reasonable care, a bed of them will produce flowers in abundance for a lifetime. Grow in sun or shade, wet or dry soil.

2 for 65c; 5 for \$1.35; 10 for \$2.35; postpaid.

CARNATION-FLOWERED BEGONIAS

Something completely different in Begonias and very lovely. The exquisite double flowers have frilled petals with edges laciniated, giving the appearance of huge double Carnations. Grow successfully in ordinary soil, in full shade or semi-shade. Bloom freely and continuously all season. Lovely in the garden, in arrangements and corsages! Your choice of 5 beautiful colors: **2828, Red; 2830, Pink; 2832, White; 2834, Yellow; 2836, Orange.**

TREE PEONIES ➔

Truly A King of Flowers!

They bloom with royal lavishment year after year. Magnificent double flowers up to 8" across, beautifully formed and richly fragrant, set against lush, deep green foliage make a wonderful display. A single plant may be used as the focal point of your garden, or use them in pairs to give distinction to an entranceway or garden walk. Their exotic beauty will enrich any setting.

Tree Peonies are amazingly easy to grow. They flourish in any climate and in any good garden soil. Extremely hardy, long-lived and disease-resistant. These woody plants, unlike herbaceous sorts, do not die back to the ground in winter. Seldom grow more than 4 to 6 feet tall, but spread gracefully, growing larger and more beautiful each year.

At these astonishingly low prices, you will want several plants for your garden this spring. We offer the following colors: **RED, 2552; PINK, 2554; PURPLE, 2556; WHITE, 2558. \$3.50 each; 2 for \$6.50, postpaid.**

DOUBLE PICOTEE BEGONIAS

These are the fascinating two-toned Begonias. The flowers are exquisite in form, full centered with interesting picoteed petals edged in contrasting color. Grow them the same as other Begonias — let them bring sparkling color and beauty to those dull, shady garden spots! Use them for colorful display in entrance planters and beneath picture windows — they'll shine as conversation starters.

For earlier bloom, start bulbs indoors and transplant when danger of frost is past. Easy to grow. Will bloom for you this summer, from June until frost. Your choice of the following colors:

2822, White with Pink Edge 2824, White with Red Edge
2826, Salmon with Scarlet Edge

HANGING BASKET BEGONIAS

The beautiful weeping or hanging variety of Begonia. Blooms with fabulous freedom, producing hundreds of flowers all summer long. Easily grown in hanging baskets or window boxes. Give them a corner of the porch, patio or terrace, sheltered from direct sun and strong winds — they'll return a lavish display of gorgeous blooms throughout summer.

For a longer blooming season, start bulbs indoors now. When danger of frost is past transfer them to outdoor location. You will be delighted with their ability to transform a dull spot into a lovely floral bower. They are perfect for shaded window boxes and rock gardens, too. Choice of colors: 2840, Red; 2842, Pink; 2844, Orange.

Bluebird Veronica

BLUEBIRD VERONICA

Impressive Flower Spikes
of Intense Blue Color

2082. Your garden won't be complete without a generous planting of this long-blooming, colorful perennial. Heavy, 12-18 inch flower spikes are compactly studded with lustrous, deep blue blossoms, making a beautiful display from midsummer through fall.

Veronica is easily grown in most soils; requires minimum care. Plant about 8 inches apart in the border. They are completely hardy and vigorous growing, with good foliage and sturdy stems. So free blooming, you will have a wealth of flowers for cutting as well as garden display. **70c each; 3 for \$1.95, postpaid.**

Plant Emblong's PERENNIALS PAINT YOUR GARDEN WITH COLOR

ORANGE BUTTERFLY PLANT

2068. (Asclepias) Sweet-scented, 3-4 inch flat clusters of the *brightest orange flowers imaginable*. Attracts numerous butterflies. Plant is dwarf growing and very hardy; withstands severe winters and hottest summers. Free flowering from July to Fall. A vivid color addition to your perennial border, and lovely for cut-flowers. Grows 18-24 inches tall; rigid stems. **55c each; 3 for \$1.60, postpaid.**

Pretty PRIMULAS

2072. (Hardy Primrose) **For hard-to-fill shady spots.** One of the most colorful of hardy perennials. Blooms during May. Flowers come in a wide range of brilliant colors. Primulas prefer a damp, shady location but may be planted in borders or rockery where light shade is obtained. Flowers are borne in clusters atop 8-inch stems, well above the broad-leaved foliage. Individual flowers are as large as half-dollars. Plant 4-6 inches apart. **75c each; 3 for \$2.10, postpaid.**

LAVANDULA

2096. (Sweet Lavender) This is the well-loved, true Sweet Lavender of delightful fragrance. The blue flowers are highly prized for drying and use in sachets. A hardy herb of shrub-like form. Blooms profusely in July and August. Flowers are borne on erect, 18-inch spikes above narrow, gray-green foliage. The entire plant is aromatic, sending exquisite fragrance throughout the garden. Give it a dry, protected location — by the patio, along a walk or in the border among other perennials. **70c each; 3 for \$1.95, postpaid.**

WHITE FEVERFEW

2042. One of the loveliest summer-blooming plants for garden display and cutting. Makes a bushy growth with abundant finely divided leaves and a profusion of small, double white flowers. Grows 12-18 inches tall. Blooms profusely throughout summer. Plant in groups, 12 inches apart, for most effective display. Long-lasting flowers make lovely bouquets, alone or combined with other perennials. **55c each; 3 for \$1.60, postpaid.**

OUTDOOR FERNS

Valuable for shady spots where flowers and grass won't grow. Ferns do well on north side of house and under trees. Luxuriant, segmented foliage is very desirable as greenery in floral arrangements. Fine for naturalizing; not bothered by tree roots.

OSTRICH FERN. 2580. A sturdy plant, Long, leathery fronds; luxuriant foliage. For deep or partial shade.

MAIDEN HAIR. 2581. Wiry black stems and lovely green, lacy fronds. Grows 1 ft. tall. Thrives in deep shade.

SENSITIVE. 2582. Succeeds in sun or shade. Good for boggy places. Height 1 ft.

LADY. 2583. Finely cut fronds. Does well in moist, rich soil; sun or shade. Grows 2 ft. tall.

70c each; 2 for \$1.30; 4 for \$2.40, postpaid.

BLUE MOON ASTER

2080. (Stokesia) Immense, 5-6 inch flowers of exquisite light blue are borne on upright, stiff stems 12-18 inches tall. Blooms throughout summer and autumn until stopped by hard frost. Excellent in foreground of border where it will give a fine display of color for weeks. Does well in sun or partial shade. **55c each; 3 for \$1.60, postpaid.**

COLORFUL VIOLAS

2084. Often called "Hardy Pansies". These enchanting little blossoms appeal to all who love flowers. The plant grows 6-8 inches tall and will thrive anywhere. Blooms from early spring until frost. Perfect for low borders, and for masses of color in the rock garden. Thrives in any good garden soil. Set 8 inches apart. Assorted colors only. **55c each; 3 for \$1.60, postpaid.**

Spectacular **ASTILBE**

Exquisite Feathery Plumes in June and July

A brilliantly colored perennial with attractive, branched, feathery flower heads. One of the easiest perennials to grow; not particular as to soil. Will grow in full sun or shade. In June and July, exquisite 18-20 inch, plummy wands of feathery character and brilliant coloring appear. As roots age, stems become more numerous, producing more flower plumes. Plant in full sun or semi-shade. Blooms last over a long period, providing a vivid splash of color in the garden. Specify color wanted.

FANAL. 2018. Feathery spikes of intense rich red.

GLADSTONE. 2017. Lovely pure white plumes.

PEACH BLOSSOM. 2019. Beautiful light rose.

75c each; 2 for \$1.39, postpaid.

SPECIAL OFFER No. 2020X

3 ASTILBE PLANTS, 1 each of the 3 colors listed . . . \$1.95, ppd.

BLEEDING HEART

OLD FASHIONED Bleeding Heart. 2202. A great favorite in generations past and still very popular. No garden is really complete without a planting of this lovely perennial. It blooms over a long period and combines beautifully with other flowers. Bears quantities of rosy-red, heart-shaped blossoms in long racemes. Grows about 2 ft. tall, has ornamental foliage. Completely hardy.

EVERBLOOMING, PLUMY Bleeding Heart. 2201.

Dwarf-growing sort with grayish-blue, finely cut foliage. Showy rose-pink flowers are in bloom almost constantly. A fine border plant; does well in sun or shade. If grown in shade, the rich color fades and becomes several shades lighter. Blooms profusely in spring and again in autumn; some flowers are produced throughout summer. Be sure to include this perennial in your spring planting.

Postpaid Prices — Above Varieties:

95c each; 2 for \$1.85; 4 for \$3.50

Spectacular — Hardy PINK VERBENA

**Blooms Continuously
All Summer and Fall**

2094. One of the most beautiful and satisfactory of all hardy perennials for massing in borders, rock gardens, and for covering banks, because of its long blooming period. Lovely, brilliant pink flowers are produced in large clusters continuously from early June until late October.

You'll enjoy this delightful perennial no matter where you plant it, not only for the color it brings to the garden but for its value as a cut flower in making low arrangements for table decoration.

Thrives in any ordinary garden soil with little care. Grows about 10 inches tall. For a colorful edging to border or walk, set plants about 6 inches apart. No need to replant each year — Hardy Verbena comes up year after year.

**Field-Grown Plants, 75c each;
3 for \$1.95, postpaid.**

Sensational - New "GREEN ICE" *Gladiolus*

2614. New and entirely different color for your Glad collection. We consider GREEN ICE by far the most satisfactory of the so-called "green glads". The color is a soft chartreuse, shading darker in the throat, without markings or blotches — a lovely color that blends well with other colors.

A strong, healthy grower reaching 5 feet and more; produces a splendid long spike carrying up to 22 buds. Opens 8 to 10 large, well-placed, perfectly formed flowers at a time.

GREEN ICE is a wonderful show flower; has the qualities of a Grand Champion. Don't fail to include it in your planting this spring. Makes a fine display in the garden and is superb in arrangements.

Experience the Magic and Beauty of Growing

MINIATURE TREES

Using the Ancient Japanese Technique of

BONSAI

Offers a Fascinating Hobby!

A miniature tree perfectly proportioned in all its parts, so realistic in appearance as to resemble its big brother in nature... this is the magic of Bonsai.

As the plants develop into artistic specimens you will prize them for home and garden. Exquisite flowering trees, twisted, contorted pines, berried plants... will become conversation pieces; will provide focal points of interest for a patio, terrace or small garden.

No Expensive Equipment Needed

A tiny pot, a living plant, a little soil, pruning shears, training wire... are all you need. Bonsai culture is not difficult. The plants are hardy, easily grown, require little time and no expensive equipment.

Emlong's have selected the varieties listed below as most suitable for Bonsai. Complete instructions are included with each order. At these low prices you can order in quantity—and experiment with several varieties.

BRISTLECONE PINE. 1026B. Naturally small and well proportioned. In its native habitat, the tree assumes a very picturesque form as it ages, with heavy, twisted, contorted trunk. Easy to keep in scale. 3-Yr. 2-3 in. Trees, 5 for \$1.00; 10 for \$1.85; 25 for \$3.75, postpaid.

JAPANESE BLACK PINE. 1024B. Dark green needles densely clothe the well-arranged branches. Tree forms a wide spreading head as it matures. Shaping and training will produce a truly decorative bonsai. 3-Yr. 6-8 in. Trees, 5 for \$1.00; 10 for \$1.85; 25 for \$3.75, postpaid.

WHITE PINE (Five Needle Pine) 1028B. Easy culture and perfect proportions make this a favorite for bonsai. The slender branches and short blue-green needles are easily kept in scale with the tiny trunk. 3-Yr. 6-8 in. Trees, 5 for \$1.00; 10 for \$1.85; 25 for \$3.75, postpaid.

MUGHO PINE. 1050B. Low, bushy growth. Bright green needles and attractive "candles." Fine for asymmetrical shaping, or cascade form to overhang a shelf, a garden wall or pool. 4-Yr., 3-5 in. Trees, 3 for \$1.00; 5 for \$1.50; 10 for \$2.50, postpaid.

JAPANESE YEW (Taxus Cuspidata) 1044B. Growth is low, bushy, spreading. Easy to shape and train. Valued as bonsai for its evergreen foliage, bright red berry-like fruits and deeply fissured trunk. 6-8 in. Trees, 3 for \$2.25; 5 for \$3.45; 10 for \$6.95, postpaid.

PFITZER JUNIPER. 1012B. Compact, blue-green feathery foliage; irregular spreading growth habit. One of the easiest to train as bonsai and highly recommended for beginners. 6-8 in. Trees, 3 for \$2.25; 5 for \$3.45; 10 for \$6.95, postpaid.

DOUGLAS FIR, Rocky Mountain Glauca. 1016B. Grown for its beautiful blue-green foliage. Symmetrical, pyramidal form, pendant branchlets, heavy cinnamon brown bark are other features that add to its value for bonsai. 3-Yr. 6-8 in. Trees, 3 for \$1.00; 5 for \$1.50; 10 for \$2.50, postpaid.

EUONYMUS VEGETUS. 1514B. Small oval leaves and small round pinkish fruits are well suited to bonsai culture. Plants may be trained over wire to any desired shape. 2-Yr. Plants, \$1.75 each; 2 for \$3.25; 4 for \$5.95, postpaid.

EUONYMUS ALATUS COMPACTA. 1338B. Foliage colors to a brilliant red in fall. Unique winged branches and conspicuous fall fruits enhance its ornamental value. 8-10 in. Transplants, \$1.00 each; 2 for \$1.85; 4 for \$3.50, postpaid.

PYRACANTHA LALANDI. 1434B. Easy to grow and keep in scale. Recommended for beginners. White flowers in spring followed by brilliant red berries in fall and winter. Evergreen foliage. 8-10 in. Transplants, \$1.25 each; 2 for \$2.25; 4 for \$4.25, postpaid.

COTONEASTER DIVARICATA. 1344B. Small pink flowers in June; brilliant red berries in autumn. Small, waxy green leaves turn red in fall. Gracefully drooping branches. Well proportioned, easily trained. 6-8 in., \$1.25 each; 2 for \$2.25; 4 for \$4.25, ppd.

HEDGE MAPLE, Acer Campestre. 1006B. Brightly colored foliage, changing with the seasons, and even the bare branches in winter, have a special esthetic quality that make deciduous trees very popular for bonsai. Five or more tiny trees may be planted in one pot to represent a grove. Leaves and branches are easily kept in scale. 2-Yr. 6-12 in., 3 for \$1.00; 5 for \$1.50; 10 for \$2.50, postpaid.

SCARLET FLW. QUINCE (Cydonia Japonica Rubra) 1396B.

Very ornamental with its spreading, spiny branches, small glossy green leaves and scarlet flowers in spring. Easily trained in classic bonsai form. 6-12 in., 3 for \$1.50; 5 for \$2.25; 10 for \$4.25, postpaid.

CHINESE RED BUD (Cercis Chinensis) 1008B. Every branch and twig is covered with tiny, purplish red flowers in spring. An exquisite bonsai! Leaf, flower, branch and trunk are easily kept in perfect balance. 6-12 in., 3 for \$1.00; 5 for \$1.50; 10 for \$2.50, ppd.

Simple, step-by-step directions cover every phase of this absorbing and decorative horticultural specialty. Line drawings and photographs also illustrate every important step, showing exact techniques and results that can be had by home gardeners everywhere. \$4.95 Each.

Add 50c for postage and handling. No Discount or Gifts are given with purchase of book.

Novelty FRUIT & FLOWERS

Dwarf Wonder Lemon

PERSIMMONS

736. (Tane-Nashi) The Oriental Persimmon is an easy-to-grow, highly productive, young-bearing tree. Not only does it provide an abundance of delicious fruit but it is a beautiful ornamental as well. The golden-orange fruits are sweet as honey with a rich, spicy flavor and are highly prized for making delectable preserves and jelly. Ripen about in August. The tree is hardy and adaptable to a variety of soils. Culture is the same as for other fruit trees. Can be planted anywhere in the garden — you'll enjoy its fruit, shade and beauty! **2-3 ft., field-grown plants, \$2.25 each; 2 for \$4.25; 4 for \$7.95, postpaid.**

DWARF WONDER LEMON

2872. Sometimes offered as Ponderosa Lemon. The most unusual plant ever offered for indoor culture. During the blooming season, several times a year, the plants are covered with fragrant, waxy-white flowers; large lemons of excellent quality follow. **2½ in. Pot Plants, \$1.25 each; 2 for \$2.40, ppd. 4 in. Select Pot Plants, \$2.95 each; 2 for \$5.45, ppd.**

GARDENIA VEITCHI

2070. (Cape Jasmine) Enjoy this beautiful plant the year around — in your home all winter and again all summer in your garden. It is easy to grow and lasts for years. The flowers are exquisite — large, beautifully formed, creamy-white, waxy-textured and richly perfumed. When not in bloom, the lush deep green, shiny foliage makes a fine decoration. You'll prize the flowers for corsages too! **3 in., Pot Plants, \$1.25 each; 2 for \$2.40, postpaid.**

Everbearing DWARF FIGS

640. Sure you can grow them! Have delicious sweet, juicy Figs from your own garden. Plants bear first year they are set out. For sections north of Philadelphia, we recommend growing them indoors in tubs. **2-3 ft. trees, \$1.50 each; 2 for \$2.85; 4 for \$5.45.**

ADAMS ELDERBERRY

ADAMS No. 1. 734. A greatly improved variety of Elderberry, producing larger berries and fruit clusters than the old-fashioned types. Elderberries make delicious pies; also desirable for jam and wine making. The plant is ornamental and makes a fine addition to any shrub border.

ADAMS No. 2. 735. We have sold Adams No. 1 Elderberry for several years, and have found that a pollinizer is necessary to insure a crop every year. Therefore, we are now able to offer Adams No. 2 for a pollinizer. The berries are just as large and delicious as Adams No. 1. Plant at least one of each variety.

Grow 'em Faster in JIFFY POTS

114. Start your bulbs, plants and flowers indoors in Jiffy pots and watch them grow faster and bigger! You'll be weeks ahead on spring gardening — plants will bloom earlier and longer! Jiffy Pots are made from sterile peat and balanced plant nutrients that develop roots so strong and healthy they actually grow right through Pot walls. When ready to transplant to the garden, PLANT POT AND ALL! Plants take root at once — no wilting or transplanting shock. Pots disintegrate in the earth, help condition soil and aerate roots. Hold soil on hard-to-plant slopes.

"BRILLIANT"

Plant Patent
No. 1183

EVERBEARING STRAWBERRY

EXCELS IN GROWING, BEARING

AND TASTE TEMPTING FEATURES

210. Everbearing Champion! Brilliant has set a record for BIG YIELDS and PERFECT BERRIES. In tests with other everbearing varieties, Brilliant produced 7000 quarts per acre; 2000 more quarts than any other variety.

True Everbearer! Brilliant is the only everbearer that keeps fruiting steadily all summer and fall. It is a 100% perfect pollinizer; matures to full size, uniform shape and even color.

Quickest Berry Maker! Brilliant plants are so thrifty and vigorous that, unlike other everbearers, the very first blossoms can be left on to bring you perfect berries just a few weeks after the plants are set out.

Matchless in Quality and Flavor! The rich tangy flavor is outstanding; flesh is firm, solid and red clear through. Home gardeners can profit by planting Brilliant this spring. Order your plants now.

VIRUS FREE ROBINSON

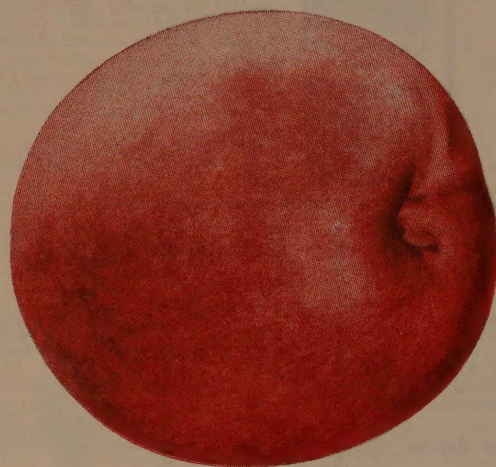

The Best Late Strawberry

270. Robinson is the only variety certified as Virus Free, by the Michigan Department of Agriculture which began the program in 1950. Completely healthy plants, selected from hundreds of samples, were propagated in strict isolation at the university farms. The resulting virus-free stock was then released to Michigan nurserymen who agreed to further propagate this stock under restricted conditions and definite cultural practices to maintain the virus-free characteristics. You, as the grower planting these virus-free plants, need not be concerned with isolating them.

One of the largest berries grown; 30 berries will fill a quart! Flavor is honey sweet. Flesh is firm-textured and solid; excellent for canning and freezing. Plants are hardy and prolific; makes a good fruiting row on any soil; bears heavily over a long period. Ripens two weeks after Premier.

NECTARINES

642. A delicious fruit, favored for eating fresh and canning. Resembles a Peach in shape and has the smooth skin of a Plum. It is also known as the "Fuzzless Peach". The fruit is large, red and very juicy with a flavor that is distinctive and extra good; freestone. Ripens with Elberta Peach. Can be grown wherever Peaches are grown; culture is the same. Plant two or more trees for proper pollinization. This luscious fruit should be in every home garden. A good money-maker for orchardists, too.

The New RED RHUBARBS

VALENTINE. 858. Deep bright red in color. Texture smooth and tender. Combines very high quality, richness of flavor and vigor of growth. The beautiful red color is clear through; stalks are tender and very sweet. Retains its bright color in cooking. Very delicious for pies and sauce.
\$1.00 each; 3 for \$2.85; 6 for \$4.95, postpaid.

RUBY RED

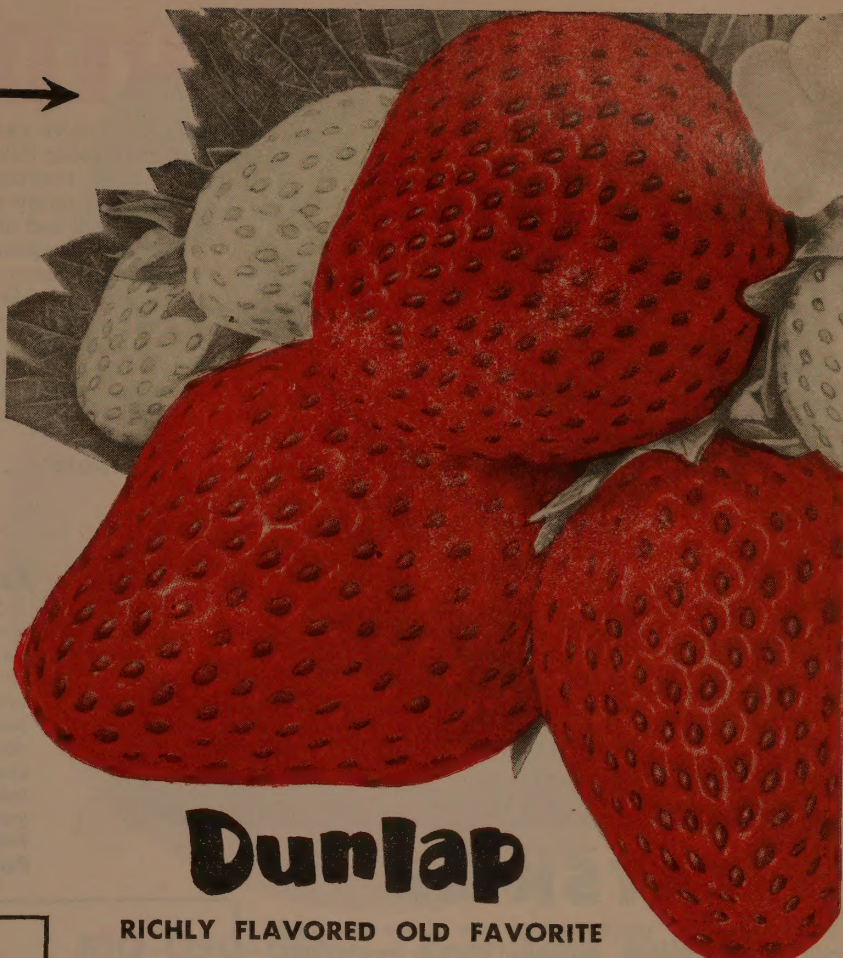

856. Large, plump, red-in-the-center stalks of the sweetest Rhubarb that you ever tasted. Excellent for pies and sauce; stalks are tender and never stringy. Early spring fruit, quickly forms a large-clump. Hardy and easy to grow anywhere. Three mature plants will supply the average family for year-round use. 95c each; 3 for \$2.75; 6 for \$4.75, Ppd.

Premier EARLY →

The Dependable Strawberry

265. The best selling Strawberry from coast to coast. One of the earliest to bear and frost resistant. The picking is best before other commercial varieties come into bearing, thus bringing "first-of-the-season" high prices. Plants are thrifty, vigorous growers and make a good fruiting row. The foliage is tough and unusually healthy, protecting blossoms from frost. Ripens early and continues bearing heavily over a long period.

Premier berries are uniformly large, long pointed in shape and bright scarlet-red; have a super-delicious flavor. Can be trucked long distances and still look fresh and appetizing. Plants are heavy-rooted; drought-resistant; self-pollenizing. **Set plants in April and May. They will bear next year. Prices below.**

Kardinal King

260. Considered the best late Strawberry. Produces record breaking crops. Starts to bear after Premier and continues through the late season, prolonging berry profits. Kardinal King berries are big, solid red, juicy and full of delicious flavor. Favored for fresh desserts, processing and freezing. Hold up well after picking and can be shipped long distances without losing their firm quality and attractive red color. The plants are thrifty, vigorous and make wide fruiting rows. Give Kardinal King a trial and you'll be convinced of its superior qualities.

Jumbo THE LARGEST STRAWBERRY GROWN

255. This exceedingly vigorous grower has proven to be one of the heaviest yielding varieties grown. The berries are extra large and dark red to the core; have mild, sweet flavor. The plants are strong and healthy; make excellent fruiting rows. The berries are firm and solid; superior for freezing, and hold up exceptionally well in shipping and handling. Ripen a little later than Premier. Fine for home gardens — a money-maker for commercial growers. **Prices below.**

Earlidawn

250. A recent introduction by U.S.D.A. The earliest of all to ripen and practically frost-proof! Produces uniformly large berries that are quite firm with a tough skin, delicious flavor and vivid red color that does not darken upon holding. Very choice for fresh desserts and processing. Plants are strong, thrifty growers and frost resistant; always a big crop. **Prices below.**

RICHLY FLAVORED OLD FAVORITE

245. Dependable midseason to late Strawberry which stands cold-est and warmest climates and poorest soils. Plants are medium in size, long rooted, extremely vigorous, free from disease, and will make more plants than any other variety grown in the midwest. Plants make a solid fruiting row, and bear medium size, very dark red berries that are honey-sweet. Richest flavored in the Strawberry family. Favored for preserving, jam, jelly, etc. Self-pollenizing. Very productive.

Superfection

A LEADING EVERBEARER

230. In just 12 weeks after planting you will get big, juicy, richly flavored red berries from your Superfection plants. Berries are firm, do not discolor after picking, and keep exceptionally well. Superfection is a very thrifty strawberry plant. Tested on leading types of soil it has proven to be rugged and hardy in Northern Michigan. Withstands adverse weather conditions and requires no special care. Plants set in April or May have ripe berries by August **this** year. Don't delay, order your plants today.

Red Rich

RED RICH

EVERBEARING STRAWBERRY

225. You've never seen plants so big and so vigorous, or berries so rich in bright red color clear through to the core! Developed in Minnesota, RED RICH is the result of a cross between Wayzata and Fairfax. It combines the best qualities of both parents, — thrifty growth, heavy yield, good plant making ability, wonderful honey-sweet flavor and firmness.

RED RICH ripens its first berries in June and keeps right on giving you heavy yields all summer, right through to fall. Luscious, big berries with firmness clear through that holds up exceptionally well in storage or shipping. They are unsurpassed for freezing too; won't mush up when thawed.

Each RED RICH plant shipment carries new "Space System" planting instructions. Follow these carefully; you'll be delighted with the results. Commercial growers and home gardeners alike can profit by planting RED RICH this spring. Supply is limited — order your plants today.

CHIEF BEMIDJI

Extremely Hardy Everbearing Strawberry

235. (Plant Pat. Applied For) A new everbearer, so hardy it survives temperatures 40 to 50 degrees below zero without winter cover! Developed at Bemidji, Minn., where temperatures are often the lowest of any in the U. S. Chief Bemidji produces large, beautiful berries, bright scarlet-red to the core and honey-sweet. Excellent for market and all purposes; high sugar content and low acid flavor. Bears an abundant crop in June and midsummer, then gives you another big crop from September until frost. Plant super-hardy CHIEF BEMIDJI this spring — have fresh, luscious, sweet berries this very summer and year after year.

CATSKILL

240. Generally recognized as one of the best mid-season to late varieties. A cross of Premier by Marshall. It is a sure cropper; ranks next to Premier in this respect; rarely ever freezes. Berries are bright, shiny red; hold color exceptionally well. Unequalled for flavor. Good for freezing, canning and shipping; berries are firm and solid. Very hardy variety; does well in all Northern states. Vigorous and thrifty; a good plant maker. Always produces a large crop of top quality, delicious berries.

MIDWAY

251. New, midseason variety. Tests have proved it very productive in most sections. Plants are vigorous and healthy; highly resistant to red stele. Berries are large, glossy, uniform deep red to the core; have slightly acid flavor. Remain firm and attractive long after picking. Good freezing quality. We rank it among the best all-purpose varieties.

Sonjana

CLIMBING STRAWBERRY

280. This amazing plant grows 6 feet tall and produces bright red, firm, juicy, sweet berries all the way up. Imagine, picking such berries off the vine this summer — without stooping or the need to wash off dirt. And they require so little space — just 2 square feet of ground per plant!

Sonjana plants are easy to grow, thrive in any good garden soil and can be trained on trellis, wall or fence. Lush green foliage, white blossoms and bright red berries are so ornamental, you can plant Sonjana anywhere — to beautify your garden, or a bare wall or fence. Produces delicious berries all summer and fall the first year, and from June until winter in succeeding years. A true perennial that will live for years, increasing in beauty and productivity. Order Sonjana for your garden this spring — it can't fail to delight you.

OZARK BEAUTY

Best Everbearer on the Market Today

Plant this Spring — Pick Berries this Summer & Fall
Tremendous Yields! Large, Juicy, Flavorful Berries!

215. This brand new Everbearer has appeared very promising in trial plantings throughout the Midwest. Has established a record for highest production and is obviously superior to many other everbearing varieties tested. The berries are large, wedge-shaped, firm, glossy; have excellent quality, rich red color and sweet, true Strawberry flavor. The plants are very prolific, healthy and vigorous. Self-pollenizing. Plant Ozark Beauty this spring — pick loads of large, juicy, sweet berries this very summer and fall, for home consumption or a big, profitable commercial crop. Supply is limited. Order your plants early.

Ozark Beauty

MICHIGAN'S FAMOUS

"HAVEN"

PEACH VARIETIES

SUN HAVEN – Best Early Peach

527. Matures 10 days earlier than Red Haven, 40 days before Elberta. Fruits are large, round, uniform in shape. Color is bright red with enough golden yellow ground color for attractive contrast. Flesh is clear yellow, firm, fine-textured and resistant to browning; delicious flavor. Freestone when fully ripe. Good keeping quality. Developed to meet growers' need for a superior, extra-early Peach.

RICH HAVEN – Ripens Midseason

523. Attractive large, round fruits. Color is golden yellow with bright red blush. Ripens 15 days before Elberta. One of the best for commercial canning. Flesh is clear yellow with moderate amount of red near pit; resistant to browning. Entirely freestone. Excellent flavor. Excellent shipping and handling ability. Rich Haven is a money-maker for commercial growers; ideal for home gardeners, too.

RED HAVEN – Extra Early

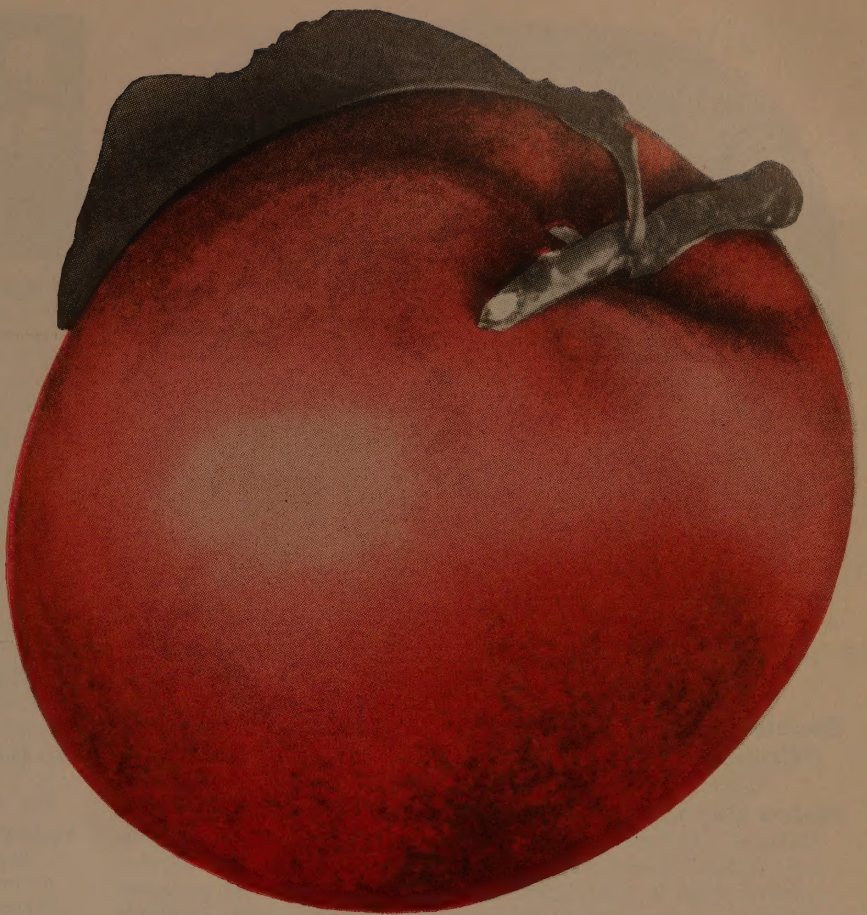

520. A flaming scarlet Peach that ripens extra early and is very hardy. Originating in Michigan, Red Haven will be colored up with gorgeous all-over red color and ready to pick and ship while the fruit is still firm and easy to handle. Wonderful dessert Peach and good for freezing. Ripens 30 days before Elberta. Trees bear young and heavily. Self-pollenizing. Very hardy. Excellent shipping and market variety.

HALE HAVEN – Fine Shipper

514. Large, beautifully colored, yellow-fleshed Peach. Has delicious sweet flavor. Ripens about 15 days ahead of Elberta. Perfect freestone. Keeps exceptionally well even when shipped long distances. One of the finest canning peaches grown. Trees are very hardy, heavy bearers; succeed in all sections.

RIO-OSO-GEM — Best Late Peach

524. Large, round, highly colored fruits with deep golden yellow flesh. Freestone. Recommended for canning, freezing and shipping. Flesh is firm and fine textured with delicious flavor. Very hardy and heavy producer. Profitable for commercial growers and home orchardists.

REDSKIN – New Red Color

522. A recent introduction that is hardy, productive, large, beautiful and delicious. A cross of J. H. Hale by Elberta. Ripens with Elberta. Beautiful red color. Flesh is yellow, firm, with aromatic, sweet flavor. Freestone. Rates high for canning. Trees are extremely hardy; bear young and heavily.

J. H. HALE – The Extra Large Peach

516. Fruit is extremely large and well colored; golden yellow with red blush; nearly fuzzless. So attractive it always sells at top prices. Flesh is bright yellow, fine-textured and delicious. Semi-fertile; plant a good pollinizer every third row.

ELBERTA – Great Commercial Peach

506. Universally known as the outstanding money-maker wherever Peaches are grown. Oval shape with deep golden skin blushed carmine-red. Flesh is golden, fine-grained, firm. Unquestionably the leading Peach for home and commercial growers. Freestone; self-pollenizing.

O'BOY – Huge, Delicious

518. The largest, most richly flavored, beautifully round, uniform Peach ever grown. Skin is glowing orange blushed carmine-red. Flesh is golden yellow, sweet. Ripens with Elberta. Freestone. Excellent canner and shipper. Semi-fertile; plant a pollinizer every third row. Propagation rights reserved.)

PLANT EMLONG'S Superior Northern Grown APPLE TREES

DOUBLE RED DELICIOUS. 306. Truly King of winter eating Apples. Very fine, solid-red strain of Delicious. Ripens in October. Fruit is large, solid red without striping. Flesh is highly flavored, stays crisp and juicy long after picking. Excellent shipper and keeper. A big seller from coast to coast. Should be in every commercial planting and home orchard because of its outstanding qualities.

SOLID RED JONATHAN. 314. The favorite large, red Jonathan so popular with commercial growers. Superior keeping quality makes it highly profitable for market. Flesh is tender, juicy and delicious; excellent for all purposes. Ripens in fall; keeps all winter. Trees bear young; very productive; long-lived; thrive almost anywhere.

YELLOW DELICIOUS. 308. Queen of the late fall eating Apples. Similar in shape and size to Red Delicious, but color is golden yellow. Flesh is firm, crisp and juicy and deliciously flavorful. The big, richly fragrant, golden fruits are considered the finest of yellow Apples. Keep exceptionally well all winter without becoming mealy. Bears young and abundantly.

RED ROME BEAUTY. 320. An all-red strain of the old Rome Beauty. Highly prized for baking purposes. Trees are vigorous growing and yield heavy crops of large, evenly colored Apples that keep well all winter.

RED MCINTOSH. 316. Emlong's large fruiting strain of McIntosh is a winner for flavor and quality. Bright red fruits of good size with white flesh. A fine juicy and highly aromatic Apple. Heavy bearing, ripening in fall.

YELLOW TRANSPARENT. 324. (Lodi Improved Strain.) Always produces a big crop of tasty Apples for pies and cooking during summer. Hardy no matter how cold your winters. Thrives in all soils and bears quickly. A perfect pollinizer.

"SUMMER LONG" EVERBEARING PEACH

Fresh Peaches July to September

646. Yes, its true! With this Peach tree in your garden, you can enjoy luscious, tree-ripened fruit for two months instead of only a week or two. Summer Long Peaches begin to ripen in July and continue through late September. And what Peaches! Large, golden yellow-fleshed, juicy, sweet and delicious. None are wasted — you pick them as they ripen, to eat fresh, for shortcake, canning, to freeze, for preserves, and jams.

The trees are very hardy and vigorous; require only the same care as other varieties. Self-pollenizing. Make beautiful ornaments with lovely fragrant blossoms and colorful fruits. Will live for years, providing you with a decorative shade tree for the yard, plus a bountiful supply of fine Peaches.

COMPLETE YOUR PLANTING WITH THESE POPULAR VARIETIES

CONCORD. 806. The leading big-crop, dark blue Grape. Large, juicy, sweet flavored fruit. Keeps well on vine. Bears every year. Excellent for jelly, juice and eating fresh. Ripens early Oct. Vigorous; usually bears second year.

FREDONIA. 808. Earliest to ripen, blue-black Grape. Vines are disease-resistant, vigorous and dependable. Large, full clusters; berries solid, large and well flavored. Favored for jelly, juice and eating fresh.

NIAGARA. 810. Most widely planted White Grape. Ranks with Concord in productivity. Beautiful amber-green-white color and rich aroma; tangy Muscat flavor. Niagara brings you years of fruit at its finest. Ripens late September.

CATAWBA. 812. Best of the Red Grapes. A dandy variety for home vineyard or grape trellis, also in demand for commercial processing and winery trade. Fruit is extra large, very sweet. Ripens late. High-yield, young bearing.

PLUM TREES

STANLEY PRUNE. 560. Sweetest Prune Grown! And bears the quickest; often starts to bear the second year after transplanting. Yields heavy annual crops. Beautiful dark blue fruits with golden flesh, so sweet it needs little sugar for canning. Juice is wine colored and rich flavored. Freestone. Ripens midseason. Hardy, thrifty grower; adaptable to a wide range of soils. Ranks high for drying, preserving and dessert.

ITALIAN PRUNE. 556. Widely planted in all fruit growing sections. Succeeds under most conditions of soil and climate. Large, oval-shaped, purple-blue Plum with attractive bloom. Flesh is firm, golden, with good texture and flavor. Very hardy, productive and reliable. Self-pollenizing.

SUPERIOR. 562. Semi-dwarf, young-bearing variety. Fruits are extra large and attractive; beautiful wine-red with purple bloom. Yellow flesh is sweet and juicy; freestone; peel like Peaches. Ripen in August; good shipping and keeping quality. Plant 2 or more trees for best results.

RED GIANT. 558. New. Fruit often measures 2½-3" long, in clusters of 7 to 12 giant beauties on each branch. Beautiful maroon-red skin overspread with pink bloom. Flesh is greenish-yellow, fine textured, firm and sweet. Profitable market Plum. Plant 2 trees for best results. (Grown and sold only by Emlong's. Propagating rights reserved.)

GREAT EUREKA. 552. Famous dessert Plum. The flavor is a combination of Plum, Apricot and Peach! Fruit is thin-skinned, juicy; excellent for all purposes, wonderful shipping and canning quality. Sometimes known as "Red Nectar" fruit because juice is red and sweet. Trees are quick bearing and heavy yielding. Plant 2 or more trees for best results. (Emlong's propagating rights reserved.)

ASPARAGUS

EASY TO GROW GOOD FOR YOU

One planting of Asparagus lasts many years. Requires little care. Asparagus is always ready to sell early in the spring before other vegetables are ripe and always brings a good price. Emlong's home-grown roots are bright colored and of large caliper. **Plant them during March, April and May.**

PARADISE. 852. The new giant strain of Asparagus from California. Makes long, thick, very tender stalks. Grows quickly. Said to bear usable tips a year sooner than other kinds. Paradise retains its color when canned or frozen. Very profitable and very dependable for home or market. Rust resistant and very productive. A hundred roots will supply the average family for many years. Plant the same as Washington.

WASHINGTON. 854. Introduced by the U. S. Department of Agriculture, this has long been the leading commercial Asparagus. Produces large, tender, green tips. Mild, rich full flavor, very delicious. In great demand for shipping, canning and freezing. Plant the roots 12 inches apart in the garden. In the field rows can be 4 feet apart. 5000 roots plant an acre.

LATHAM RED RASPBERRY

The Most Popular Variety for All Purposes!

712. Deep red berries, uniformly round and unusually large; often measuring one inch in diameter. Deliciously full-flavored and aromatic. Latham berries are top quality and always in demand for fresh desserts, canning and freezing. They bring highest prices on the fruit market and have long been the leading commercial variety. Plants are hardy and bear enormous crops.

WILLAMETTE — Heavy Producer

716. Berries are among the largest Red Raspberries grown. Fruit ripens midseason, is conical in shape, very firm, dark red, medium acid. Good for freezing, canning and eating fresh. Retains its firm quality after picking; ships and keeps well. Yields a good crop year after year.

New SEPTEMBER — Two Crops in One Year

714. Bears a full crop in June and another in September. First berries ripen several days ahead of earliest spring bearing varieties. Large, bright red fruit, uniform in shape and excellent quality. Keeps well on bush and after picking. Fall crop ripens 2-4 weeks ahead of other fall varieties. Hardy, heavy bearing plants.

New DURHAM — Large, Everbearing

711. Large, juicy berries, free from seediness and full of flavor are borne until frost. Berries retain their red color and firm quality long after picking. Delicious to eat fresh, canned or frozen.

INDIAN SUMMER—Outstanding Everbearer

718. Giant size, glossy red, thimble-shaped berries with sweet, delicious flavor. Ideal for quick-freezing, fresh dessert and canning. Ripens first crop in June, and another bumper crop in the Fall. Berries are borne in large clusters; every berry matures to full size and rich red color. Both crops ripen over a long period.

GOLDEN QUEEN RASPBERRY

732. Beautiful large, golden yellow Raspberry. Many prefer Golden Queen because of its sugary sweetness and unsurpassed flavor. An attractive dessert berry and very unusual when served in combination with either Black or Red Raspberries as a dessert. The canes are hardy, vigorous growers and heavy croppers. Ripens with Latham. Culture is the same as that for Red Raspberries.

Emlong's BLACK RASPBERRY PLANTS

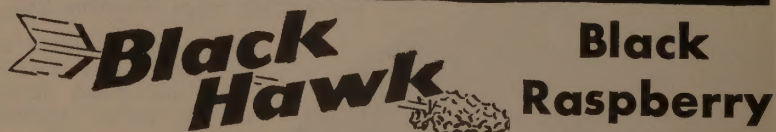

NEW DAWN — Earliest Blackcap

703. A fine new early Black Raspberry. Very vigorous grower, Hardy and disease resistant. Produces a tremendous early crop. Good money-maker for first-of-the-season berry market. Large, attractive, glossy black, firm berries; non-crumbling. Juicy and well-flavored. Wonderful for pies, canning, fresh desserts and all purposes. Keeps and ships exceedingly well. A superior early variety for commercial growers and home gardens. Extend your berry season by planting NEW DAWN this spring along with the late ripening varieties. Supply is limited. Order early. Prices at right below.

CUMBERLAND — Late Ripening Blackcap

702. Ripens midsummer and bears through the late season. Produces big profitable crops of large, firm, round, glistening black berries that "ooze" with rich flavor. In big demand for fresh desserts, canning and freezing. The plants are self-supporting and non-suckering. Hardy, thrifty growers; will thrive anywhere. An old favorite and still widely planted by commercial growers and in home gardens.

Outyields All Other Varieties

701. An outstanding Black Raspberry by all counts! Originated by Iowa State College and introduced in 1955, after 20 years of careful testing. In tests it outyielded all other varieties, — producing as many as 5000 pints of berries per acre. The berries are quite large, often measure 3/4 inch in diameter; attractive glossy black color; juicy, sweet, delicious flavor. Ripen midseason, have firm quality, easy to pick and do not crumble. Hold up well in shipping and handling. One of the best for eating fresh, canning, freezing, pies and jam. The plants are strong, healthy and vigorous. Highly recommended for commercial plantings and home growers.

GROW **Giant** **Blueberries**

— COMMERCIAL —
or IN YOUR OWN GARDEN

Useful as Hedges — Foundation Plantings

Blueberry plants have a dual purpose in your planting. They are excellent ornamental shrubs, both when in bloom with large clusters of Lily of the Valley-like flowers, or when loaded with ripening berries; as well as affording delicious fruit for your own use, or to market for profit. The foliage of the Blueberry turns red in the fall, giving a pleasing contrast among other shrubs. Plant Blueberries in shrub borders, hedges or foundation planting.

Beautiful Blossoms — Delicious Fruit all Summer Long. Enjoy luscious, giant Blueberries. Each bush is a fruit garden in itself. The berries are mild and sweet. Fruit ripens over a long season and keeps well on bushes and after being picked. Plants usually start to bear the third year. Plant two or more bushes for perfect pollenization; set 5 to 7 feet apart.

JERSEY — Midseason to late No. 744. Vigorous hardy bushes; yield extra large berries. In our opinion Jersey is superior to other varieties.

RUBEL — Midseason No. 748. A very hardy upright bush that gives generous yields of medium to large size fruit.

RANCOCAS — Early No. 746. The Rancocas variety is of excellent quality and produces a good crop over a long picking season.

2 of the Largest and Newest BLUEBERRIES

BLUECROP. 749. Outstanding for its vigorous growth and masses of very large berries. Fruit is large, deliciously sweet and light blue in color. Ripens earlier than Jersey.

EARLY BLUE. 750. Bush is vigorous, upright and productive. Fruit is large, light blue, very firm and sweet. Ripens early; keeps well.

SWEET CHERRIES

BLACK GIANT. 406. Our largest, blackest and sweetest Cherry! Bears the heaviest crops of any Sweet Cherry we have grown. A beauty which you will grow with pride.

WINDSOR. 414. Cherries are large, dark maroon in color. Very hardy and an abundant yielder. Self-pollenizing.

BLACK TARTARIAN. 408. A purplish-black Sweet Cherry which ripens so early and has a marvelously rich flavor. Fruit matures to large size. Trees are hardy and bear young. Excellent pollenizer.

SCHMIDT. 412. For the midsummer market there is no finer Sweet Cherry grown. Fruits are extra large, plump and uniform in size. A beautiful dark, glossy black in color. Superb flavor.

NAPOLEON. 410. The favorite golden Sweet Cherry with beautiful pink cheek. Very large fruits. Heavy producer; good pollenizer.

BING. 404. Famous from coast to coast. Wonderful dessert Cherry. Richly flavored, extra large size, brownish black-red color. Ripens midseason.

American
Holly→

American Holly

Brilliant Red Berries! Beautiful Evergreen Foliage!
Add Color & Variety to Your Landscape All Year!

Perfect for Foundation, Lawn or Hedge

(*Ilex Opaca*) By far the most famous of the Holly family. This excellent plant is rapidly becoming one of our most important ornamentals. Perfect for every type of home, small or large. Grows to a height of 25 feet, but looks best when kept trimmed to a compact size of 8 to 12 feet. Thrives in any good garden soil; we recommend the use of aluminum sulphate in planting. Grows best in semi-shade. Requires a minimum of care. Makes a lush, colorful display all year in foundation planting, as lawn specimens or a hedge.

Grow Your Own Christmas Holly for Home Decoration and Gifts!

Broad, oak-like shiny leaves are distinctive; their rich green color greatly enhanced by quantities of bright red berries which remain nearly all winter. Beautiful throughout the year, it appears to greatest advantage at Christmas. Cutting of branches in winter results in neater appearance and more luxuriant growth. Plant this spring for years of garden beauty. Your choice of: **1366 Male**, or **1364 Female** plants. For best results plant one of each.

FLOWERING DOGWOOD

A Vision of Loveliness in All Seasons

New "CHEROKEE CHIEF"

Sensational Red Flowering Dogwood!

1265. Outstanding for its beauty and earliness of bloom. Lovely rose-red blossoms cover the tree in early spring, followed by attractive dark green foliage which changes to gorgeous shades of red in the fall. Bears clusters of bright red fruit in September and October. This variety makes a beautiful lawn specimen, and is equally effective in border planting. A combination of red with white flowering makes a lovely grouping. Grows 8 to 10 feet tall.

PINK FLOWERING DOGWOOD

1266. Cornus Florida Rubra. This charming, spring flowering tree possesses a large measure of attractiveness throughout the entire year. A tree in full bloom is a magnificent sight. Showy pink flowers appear in early spring, followed by rich, dark green foliage which changes to gorgeous red tones in the fall. Grows 8 to 10 feet tall. Makes an artistic lawn specimen or a colorful accent anywhere on the home grounds. Does equally well in sun or shade.
